GUIDELINES FOR FIREARM PURCHASES

- All Federal, State and Local firearms laws will be observed. FFL holders may take possession of any firearm on day of sale when they present a signed copy of their Federal Firearms License. New Hampshire residents over the age of 21 may take possession of any firearm on day of sale providing the proper paperwork is filled out and the transfer has been approved either through the NH State Police or the FBI NICS System. While most NICS and State approvals are immediate, approvals could take up to 3 days. Most non-residents may take possession of long guns on day of sale after completing the proper forms and successfully completing a NICS check; modern handguns will need to be shipped to an FFL holder in the buyer's home state. Buyer is responsible for any and all shipping charges and all items must be paid for on day of sale. Bidders should be familiar with their local and state laws.

Firearms are marked as follows:

ANTIQUÉ - no paperwork required

C&R - for firearms that fall under the ATF Curio & Relics licensing and if purchased by a person with a "C&R License" no paperwork is required. **NOTE:** Items that meet the age requirements but have been altered from their original configuration may NOT be delivered on a C&R License.

Firearms that are not marked with one of these notations are considered to be "MODERN" and all proper paperwork is required unless you are an FFL Dealer.

WARNING

Amoskeag Auction Company, Inc. **does not** warranty the safety of any article it sells. Therefore, we recommend that, before you use any firearm, purchased here or anywhere else, you have it examined by a qualified gunsmith to determine whether or not it is safe to use.

2000. **COLT MODEL 1851 NAVY PERCUSSION REVOLVER** serial #102757, .36 cal, 7 1/2" barrel with a good to near very good bore with evident rifling and scattered pitting. The metal surfaces are an overall silvery-gray patina with light brown staining here and there and remnants of pinprick pitting. The barrel features the New York address and rounded blade front sight has been installed. The cylinder scene is no longer visible and all of the numbered parts are matching except for the wedge. The triggerguard and backstrap have toned to a dull ochre patina. The one-piece walnut grip is un-numbered and rates excellent with minor handling marks from the years. The arm times and locks smartly and a few of the screws show minor slot damage. A very good 1851 Navy overall. (157422-18) {ANTIQUE} (1000/1500)
2001. **COLT MODEL 1851 NAVY PERCUSSION REVOLVER** serial #150802, .36 cal, 7 1/2" barrel with a very good bore with light pinprick pitting and rifling still visible. The metal surfaces have been lightly cleaned to a dull pewter patina and show remnants of tiny pinprick pits here and there. The barrel features the New York address and the original bead front sight is intact. The cylinder scene is no longer visible and the parts have been cleaned of their numbers, including the wedge. The triggerguard and backstrap are a bright goldenrod patina with a couple of tiny dings. The one-piece walnut grip is un-numbered and rates near excellent showing added varnish and a vertical hairline crack running down the right side of the grip from top to bottom and was overlooked at first glance. The arm times and locks smartly. This 1851 Navy would be a great addition for the budding collector. (157244-22) {ANTIQUE} (800/1200)
2002. **REMINGTON 1100 SKEET B GRADE SEMI-AUTO SHOTGUN** serial #L784501X, 20 ga, 25 1/2" ventilated rib barrel choked skeet with a bright excellent bore. The metal surfaces retain 98% original gloss blue finish with a few spots of loss and tiny specks of oxidation here and there. The checkered pistolgrip walnut buttstock and forend rate very good to near excellent with scattered dings and dents, a crack on the left side of the forend stemming from the center of a knot in the grain and a couple of small repaired chips on the rear edge of the right side. (157334-41D30508) (300/500)
2003. **CUSTOM U.S. MODEL 1917 BOLT ACTION SPORTING RIFLE BY EDDYSTONE** serial #1100259, 30-06, 26" barrel dated "9-18" with a bright excellent bore. The metal surfaces retain about 90% arsenal blue with most of the loss on the bottom metal showing pinprick pitting on the triggerguard and moderate wear to pewter on the bolt handle/knob with more pinprick pitting present. There appears to be a few spots of white enamel that have splattered on the floorplate and surrounding wood. The custom plain pistolgrip walnut sporterized stock rates very good overall with several dings and handling marks as well as the aforementioned white enamel scattered along nearly the entire left side of the stock. There are three chips missing at the butt of the stock, one being at the toe, and the stock seems to have been made by an amateur gunsmith. Included with this rifle in the buttstock compartment is a metal cleaning kit. (157323-37S18686) (100/200)
2004. **CZECH VZ24 MAUSER BOLT ACTION RIFLE** serial #8884N4, 8mm Mauser, 23" barrel with a very good, mostly bright bore with minor frosting in the grooves. The metal surfaces retain about 40-50% original blue with the balance toned to pewter with scattered brown oxidation stains here and there; a lion is stamped on the receiver ring. The plain pistolgrip hardwood buttstock and handguard rate very good with scattered handling marks throughout and two repairs where the grip screw once was. All parts are matching, including the stock, and there is no cleaning rod present. A brown hard case is included. (157323-48S18697) {C&R} (300/500)
2005. **J. STEVENS A & T CO. "FAVORITE" NO. 17 RIFLE** serial #Y24, 25 Stevens, 22" half round, half octagon barrel with a mostly bright, very good bore with a few pits here and there. The barrel retains 95% original blue with light surface oxidation here and there and a bit of thinning at the muzzle-end of the barrel. The frame retains about 80-85% original case-hardened color which has slightly muted in some areas with the balance toned to a smoky case-hardened patina; there are scattered pinprick pits here and there. The straight grip walnut buttstock and forend rate very good to near excellent, as refinished, with scattered light handling marks. (157021-3) {C&R} (200/300)
2006. **REMINGTON SPORTSMAN MODEL SEMI-AUTO SHOTGUN** serial #1576875, 16 ga, 28" plain barrel choked modified with a bright excellent bore. The metal surfaces retain 98% original blue finish throughout with a few light scratches and minor blemishes. The checkered pistolgrip walnut buttstock and forend rate excellent with a couple of light handling marks from the years. A like-new example overall. (157330-150) {C&R} (300/500)
2007. **REMINGTON MODEL 11 SEMI-AUTO SHOTGUN** serial #1101778, 20 ga, 26" plain barrel choked modified with a bright excellent bore. The metal surfaces retain 92% original blue with thinning on the bottom metal, light brown oxidation staining here and there and tiny specks of surface oxidation. The checkered pistolgrip walnut buttstock and forend rate vvery good with a pair of 1" cracks on either side of the forend, abutting the frame and several light handling marks. (157115-10) {C&R} (200/300)
2008. **BELGIAN ZULU PIVOT BREECH SHOTGUN** serial #2153, 12 ga, 33" barrel with a near very good bore with scattered pitting. The barrel has toned to a dark plum-brown patina with light, evenly scattered pinprick pitting throughout; the barrel has a worn Belgian proof. The brass Snider breechblock and frame have toned to a pleasing goldenrod patina with dark tarnishing and light dings here and there. The walnut stock rates good, as refinished, showing a couple of repairs on the toeline and added varnish. The metal is slightly proud of the wood. (157249-91) {ANTIQUE} (75/150)
2009. **C.S. PETTENGILL POCKET MODEL REVOLVER** 31 cal, 4 1/2" octagon barrel with a good oxidized bore with scattered pitting. The metal surfaces have toned to a mottled pewter-brown patina with moderate pitting throughout and worn edges; the cylinder is a slightly darker patina. The two-piece walnut grips rate very good to near excellent with a couple of minor handling marks and appear to have been lightly sanded, for the metal is slightly proud of the wood at the tops of the grips. The revolver does not function properly and is in need of mechanical attention. The cylinder rod screw is a modern replacement. A good entry level pocket model Pettengill revolver. (156889-209) {ANTIQUE} (400/600)

2010. **BELGIAN BRITISH CONSTABULARY DOUBLE ACTION REVOLVER** serial #3969, 32 CF, 4" barrel with a very good bore with scattered soft pits. The arm retains nearly all of its original nickel finish and shows light striations here and there as well as tiny specks of oxidation, primarily on the gripframe. The cylinder is Belgian proofed as well as the right side of the frame; the left side of the frame shows remnants of what appears to be an Auguste Francotte proof, however the "crown over F" is only visible and not the "A". The checkered two-piece grips rate very good with light wear and handling marks from the years and appear to be original. The action times and locks appropriately in most instances however not consistently and is in need of mechanical attention. Included with this revolver is a wooden case which was made out of a checkerboard, 24 loose rounds of 32 C.F. ammunition and the end label from a vintage Focchi ammunition box which the loose rounds likely came from. (157096-2) {ANTIQUE} (300/500)

- 2011. **WINCHESTER MODEL 94 LEVER ACTION CARBINE** serial #1294596, 30 W.C.F., 20" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with light high edge wear and tiny specks of oxidation scattered about. The straight grip walnut buttstock and forend rate very good to near excellent with light handling marks and a small hole in the toe of the stock and a start of one on the bottom of the forend, likely caused when attempting to install sling swivels. There is a pea-sized chip on the right side of the butt near the buttplate. Right is sighted with standard open front and rear sights. There are two added drilled and tapped holes on the left side of the frame. (157389-2) {C&R} (350/550)
- 2012. **MARLIN MODEL 30 SLIDE ACTION SHOTGUN** serial #137501, 16 ga, 28" matted barrel choked full with a bright very good bore with scattered pitting here and there. The metal surfaces retain 98% reapplied blue with light specks of oxidation here and there and slight operational loss; the serial number has been filled in with white enamel. The checkered pistolgrip walnut buttstock and forend rate excellent, as refinished, with flattened checkering and nearly all of the added varnish remaining. The action functions properly. (157449-47) {C&R} (200/400)
- 2013. **WINCHESTER MODEL 94 LEVER ACTION CARBINE** serial #1328148, 30 W.C.F., 20" barrel with a bright excellent bore. The metal surfaces retain 85% original blue with silvering on the high edges and most of the loss at the carry point along with scattered loss and light scratches; the left side of the frame is drilled and tapped for a receiver mount. The straight grip shotgun buttstock and forend have been lightly sanded and rate very good with a fine crack on the upper left side of the grip and at the rear edge of the lower tang as well as a small 1/2" chip missing at the toe. Standard open sights are affixed. (157440-10D30589) (250/450)
- 2014. **WINCHESTER MODEL 94 LEVER ACTION CARBINE** serial #1124497, 30 W.C.F., 20" barrel with a bright excellent bore. The metal surfaces retain 99% added high gloss blue finish and the barrel address and caliber have been filled in with gold enamel. The straight grip walnut buttstock and forend rate excellent showing added varnish and maybe a light handling mark or two. (157398-8) {C&R} (300/500)
- 2015. **HARRINGTON & RICHARDSON YOUNG AMERICA DOUBLE ACTION REVOLVER** serial #398031, 22 RF, 2" barrel with an overall pitted bore still showing some good rifling. The metal surfaces retain about 90% original blue with patches of fading gray-brown patina and light scratches. The checkered hard rubber grips rate poor being oversized, the tops have been ground off which have left gaps at the tops of the panels which still do not seat properly. The hammer does not lock in the cocked position and the action does not advance properly. (56797-5) (100/200)
- 2016. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY NAGOYA ARSENAL** serial #41874, 6.5 mm Arisaka, 31 3/8" barrel with a very good bore having some scattered oxidation and pinprick pitting. The metal surfaces retain about 90% original blue toning to gray-brown. The two-piece Asian hardwood stock rates very good with a half dozen modest dents in the left side of the stock and handguard along with numerous light handling marks. The rifle is equipped with a protected front sight and plain rear sight. The mum is intact and the bolt is numbered to the gun, the dust cover however is numbered to a different rifle. (57095-3) {C&R} (200/400)

2017 **RARE A.H. FOX GUN COMPANY TOY SIDE BY SIDE SHOTGUN.**

This toy gun was made by the Fox Gun Company in Philadelphia around the mid to late '920's. The 16" barrels retain about 90% of a flaking

added black paint showing scattered oxidation spotting and the frame and forearm exhibit 60-70% of a more subdued black paint which is also flaking. On the bottom of the stamped metal frame is "A. H. Fox Gun Company, Phila, PA., U. S. A., Pats Pend on Gun and Shell". The wood stock is carved with a round knob grip and has a plain wood butt which provides a length of pull of 11 3/4" with drops of 1 1/8" and 1 3/4". The stock rates very good showing scattered dings, scratches and dry cracks with chipping evident around the action that is starting to become loose from the frame. The gun has two operable triggers and top lever and comes with two metal cartridges about 28 ga. in diameter and 3 1/4" long in size which are tarnished. (1X176429-1) {NON-GUN} (300/500)

- 2018. **IVER JOHNSON SECOND MODEL SAFETY HAMMER TOP BREAK REVOLVER** serial #K9507, 32 S&W, 3" barrel with a near very good bore which exhibits areas of heavier oxidation. The metal surfaces rate very good and retain about 80% of their factory original blued finish, exhibiting extensive coverage by light oxidation staining, with the grip surfaces developing a brown patina. The checkered black synthetic "Owl Head" grips rate near excellent and exhibit only minor light signs of previous handling. The revolver requires some mechanical attention as the cylinder stop fails to lock the cylinder in place. (136940-179) {C&R} (25/75)
- 2019. **CUSTOM FOLK ART 1898 KRAG SPORTING RIFLE** serial #290339, 30-40 Krag, 22 1/2" barrel with a bright excellent bore. The barrel retains 80-85% original blue with areas showing loss due to handling marks. The frame has toned to a gunmetal gray having areas of oxidation spotting and traces of original blue. The folk art style walnut stock rates and very good displaying sculptural like wood designs added to the stock with multiple colored plastic, brass and colored stone geometric inlays scattered throughout the stock; some of the inlays have gone missing. The stock has been cut at the comb line and another piece has been added. The gun wears a front sight and a dove-tail rear sight which has a brass inlays. Overall an interesting looking custom Krag. (2X177022-122) (150/250)

2020. **SIAMESE MODEL 1903 TYPE 45 MAUSER RIFLE** serial #36127, 8x50R, 29" barrel with an excellent bore. The metal surfaces retain about 85% of an arsenal blue finish that is flaking to brown with areas of light surface oxidation and some light pitting blending in. The hardwood stocks rate good and have several light dings, divots and other service type handling marks. There is a small gap between the two pieces of the buttstock. The markings all appear crisp and there are no visible importer markings present. The cleaning rod is not present but rifle appears otherwise complete. A very good condition example overall. (46965-53) {C&R} (100/200)

2021. **SMITH & WESSON MILITARY & POLICE MODEL 1905 HAND EJECTOR REVOLVER** serial #81701, 32-20 W.C.F., 5" pinned barrel with a frosted bore. The revolver retains about 85% plus original nickel plated finish with scattered oxidation blemishes, pinprick pitting, flaking near the hump of the grip frame, some limited bubbling and random scratches. The hammer and trigger have worn to gunmetal gray with scattered oxidation blemishes. The grips have been changed to un-numbered diamond checkered walnut factory grips with moderated wear to the diamond points and moderated handling marks. No S&W logo is found on the frame but the remaining markings on the barrel are crisp. Someone has hand scratched the numbers H-21219 on the side of the frame and all appropriate parts have correct matching numbers. (86801-35) (275/375)

2022. **LEFEVER NITRO SPECIAL BOXLOCK DOUBLE SHOTGUN** serial #327898, 12 ga, 30" matted rib barrels choked full and modified with bright excellent bores. The barrels retain 98% original blue finish displaying a few light scratches and light loss at the breeches and muzzles. The frame is engraved with a flying goose on both sides and has faded to a smoke gray with traces of original case colors in the protected areas. The walnut pistolgrip buttstock and forend rate excellent as refinished having a few light handling marks and faint traces checkering present; the metal is proud to the wood. The buttstock wears a hard rubber buttplate which provides a length of pull of 14 1/4" with drops of 1 3/4" and 2 3/4". The gun features double triggers and the the top lever is about 1/2" right of center and stays to the right when opened prohibiting the gun from locking up properly. (176758-38) {C&R} (200/400)

2023. **ITHACA FIELD GRADE BOXLOCK DOUBLE SHOTGUN** serial #120596, 12 ga, 30" matted rib barrels choked full and full with a very good lightly pitted bore. The barrels retain 80% of an evenly thinning blue finish displaying some sparse areas of surfaces oxidation, light scratches and nicks. The frame has toned to a pewter patina having areas of oxidation staining. The checkered walnut pistolgrip buttstock and forend rate very good displaying a few light handling marks. There is a 5/8" crack present at the upper tang. The buttstock wears a hard factory Ithaca buttplate which provides a length of pull of 14 1/8". The gun features double triggers, an automatic safety and extractors. (177053-5) {C&R} (300/500)

The metal surfaces retain about 98% original blue finish with some limited and light high edge wear. The synthetic grips with basket weave pattern and "Duo" monogram are in excellent condition. The slide has a Czech proof mark and is dated 1944. A single magazine is included. These pistols are reported to have been sold commercially to "authorized" personnel in Germany during the war. This is a very nice condition pistol and another great addition to the WWII collector's kit. (87330-88) {C&R} (250/350)
2042. **CESKA ZBROJOVKA VZ 45 POCKET SEMI-AUTO PISTOL** serial #16731, 25 ACP, 2 1/2" barrel with slight frosting in the bore. This 1937 dated, non importer marked, pistol features a double action only firing mechanism. The metal surfaces retain about 75% original blue finish that is thinning to gray with pewter highlights. The checkered brown plastic grips with CZ logo rate fair with light handling wear and a repair on the left panel. The panel has cracked in two and was repaired with adhesive. The pistol includes a single magazine that is numbered to the gun. (87330-107) {C&R} (100/200)
2043. **J.P. SAUER & SOHN MODEL 1930 "AUTHORITY" SEMI-AUTO PISTOL** serial #189735, 32 ACP, 3" barrel with an excellent bore. This pistol retains about 90% plus original blue finish with high edge wear and silvering at the muzzle. The checkered black synthetic grips rate excellent overall and have the caliber in a banner and Sauer monogram on the left panel. The pistol includes a single magazine marked "S&S Cal. 7.65" on the base. (87330-100) {C&R} (150/250)
2044. **SEDGLEY MODEL 1910 BABY HAMMERLESS TRANSITION REVOLVER** serial #371, 22 Short, 1 3/8" barrel with a near excellent bore exhibiting tool marks. The metal surfaces retain about 99% original nickel plated finish with a light turn ring on the cylinder and a few handling marks. The checkered hard rubber grips are in excellent condition. The top strap has the April 5, 1910 patent date and is marked Model 1910. The tiny gun still times and locks up correctly. (87330-211) {C&R} (100/200)

2045. **RUGER NEW MODEL BLACKHAWK REVOLVER** serial #51-11237, 30 Carbine, 7 1/2" barrel with an excellent, bright bore. The metal surfaces of the frame, barrel and cylinder retain about 95% of their original factory blue finish that exhibits light silvering of the high edges, minor surface oxidation on the left side of the barrel and a cylinder turn ring. The steel grip frame has been polished and left in-the-white to give the gun a two tone appearance. The smooth walnut grips rate very good plus, but exhibit some light wear, as well as a minor scuff along the left grip panel. Included with the revolver are an original factory box and shipping sleeve that are correctly end labeled and hand numbered to the gun, manual and paperwork. (87334-21D29973) (250/350)
2046. **COLT MODEL 1903 POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #63836, 32 ACP, 4" barrel with a heavily frosted bore. This well used, 1907 made, pocket hammerless has little finish. The metal surfaces are gunmetal gray with scattered pitting, handling marks and old oxidation stains. There are traces of original blue present in the protected areas of the frame and slide. The sides of the trigger have a few traces of Nitre blue but the other small parts are pewter. The correct era checkered hard rubber grips rate very good to excellent with slight wear to the diamond points but crisp markings. A single unmarked magazine is included. This is an early model with the longer barrel and equipped with a bushing. (87334-16D30036) {C&R} (100/200)
2047. **INTRATEC PROTECT 25 SEMI-AUTO PISTOL** serial #017955, 25 ACP, 2 1/2" barrel with an excellent bore. The stainless steel surfaces of this double action only pistol are in very good condition with light scattered handling marks. There are also a few light oxidation blemishes on the barrels exterior. The checkered plastic grips with company and model monograms are in excellent condition. The little pocket pistol includes a single magazine and an Uncle Mike's inside the waist holster. (87323-3S18463) (50/100)

The silver anodized surfaces of the frame are in near excellent condition with a few light handling marks. The checkered black plastic thumb rest grips are in very good to excellent condition with light handling marks. The pistol includes a pair of magazines with finger extension floorplates. One magazine has a black anodized floorplate and the other is silver. (87323-27S19052) (100/200)
2049. **LLAMA MODEL IIIA SEMI-AUTO PISTOL** serial #A31565, 380ACP, 3 3/4" barrel with an excellent bore. This Stoeger Industries marked pistol retains about 85% original blue finish with thinning to pewter grip frame, high edge wear, scattered oxidation blemishes, handling marks and few pits. The checkered black plastic factory grips rate good to very good with light handling blemishes but both panels have scratched trident symbol (left panel) and a Star of David (right). The pistol features a windage adjustable rear sight and ventilated rib. The pistol is proof date stamped 1984 and a single magazine is included. (87334-12D30603) (100/200)
2050. **DEUTSCHE WERKE MODEL 1920 ORTGIES PATENT SEMI-AUTO PISTOL** serial #97665, 3 1/2" barrel with an excellent bore. This pistol has strong finish but the firing mechanism is in need of repair. The pistol retains about 97% original blue finish that is starting to thin, along with high edge wear. The smooth walnut factory grips with Deutsche Werke medallions rate very good with light handling marks. The pistol includes a single magazine marked for 7.65 (32 ACP) and 9mm (380 ACP) as the pistol was designed to allow quick barrel change from one caliber to the next. No extra barrel is provided and the sear / firing pin are in need of professional attention. (87334-13D26331) {C&R} (100/200)
2051. **HARRINGTON & RICHARDSON SELF LOADING 25 SEMI-AUTO PISTOL** serial #16057, 25 ACP, 2 1/8" barrel with a frosted bore. This second variation pistol retains about 85% plus original blue finish with scattered oxidation blemishes, pitting and light high edge wear. The checkered hard rubber factory grips with H&R monogram are in near excellent condition with slight handling marks. The pistol includes a single magazine and remains functional. (87334-15D30601) {C&R} (250/350)
2052. **REMINGTON MODEL NO. 3 DOUBLE DERINGER** serial #844, 41 RF, 3" double barrel cluster with oxidized and pitted bores. This type II Deringer remains in very good condition. The barrels are a mottled mix of purple, brown and pewter with strong streaks of original blue present in the protected areas. The frame retains the same coloration with only a few scant traces of original finish. The un-numbered checkered hard rubber grips rate excellent with a few light wear marks. The hammer retains most of its Nitre blue with some light oxidation stains while the extractor has a trace remaining. Barrel-to-frame fit is exceptionally tight and the little gun is still fully functional. (87286-2) {C&R} (300/500)
2053. **MARLIN MODEL 1889 LEVER ACTION RIFLE** serial #51704, 44-40 W.C.F., 24" plain barrel with a lightly pitted but bright bore. The metal surfaces retain about 97% reapplied black finish but the lever and buttplate were not refinished. They are a brown hue with scattered light oxidation blemishes and pitting. The remaining surfaces exhibit past pitting and scratches with oxidation blemishes and light scuffing present on the new finish. The buttstock rates very good to excellent with light re-applied varnish and handling wear. The forend has later applied varnish with light dents and dings. The rifle sports a Rocky Mountain brass knife blade front sight and sporting elevator leaf rear sight. The half cock feature is not functional and the firing pin has been removed from the bolt, but it is provided. (87249-241) {ANTIQUÉ} (250/450)
2054. **COLT POCKET POSITIVE DOUBLE ACTION REVOLVER** serial #133595, 32 Colt Police Positive (32 S&W Long), 2 1/2" barrel with a slightly oxidized bore. The metal surfaces of this first issue, 1928 made gun retain about 85% original blue finish with the grip frame thinning to brown and the backstrap exhibiting evidence of light cleaning. The cylinder has a turn ring, and there are scattered light oxidation blemishes, scratches, cleaning marks and pinprick pitting also found on the metal surfaces. Rich Nitre blue is still present on the hammer and trigger with light oxidation staining on the hammer sides. The correct checkered hard rubber factory grips rate near excellent with light handling marks and are correctly numbered to the gun. The revolver still times and locks up correctly but is missing the crane lock and crane lock screw. The last patent date on the barrel is July 4, 1905. (87142-8) {C&R} (300/500)
2055. **COLT POLICE POSITIVE SPECIAL REVOLVER** serial #162193, 38 Special, 4" barrel with an excellent bore. This is a well used gun. The metal surfaces are predominantly gray with the only remaining original factory blue in the flutes of the cylinder and the recesses of the protected areas. The Nitre blue finish on the hammer and trigger has faded but remains strong on the rear portion of the trigger. Scattered light oxidation blemishes, pinprick pitting and handling marks are present. The checkered fleur-de-lis design hard rubber grips are the correct version for this 1919 made gun and are correctly numbered to the gun. The heel of the right panel is missing a 1/2" tall chip with a crack extending to the center of the panel along with scattered light handling marks on the grips. If you want a shooter, this is it. (87087-101) {C&R} (100/200)
2056. **ETHAN ALLEN CENTER HAMMER SINGLE SHOT PISTOL** serial #4992, 22 Short, 3 1/8" half round half octagon barrel with a lightly oxidized and pitted bore. This square butt, E. Allen & Co. marked pistol retains 90% nickel plating on the barrel with scattered light oxidation blemishes, slight bubbling, handling marks and pinprick pitting. The receiver is predominantly gunmetal gray with brown overtones and exhibits light scattered oxidation blemishes, a few pinprick pits and light handling wear. The smooth walnut grips rate very good with light handling marks. The grips, barrel and extractor are numbered to the gun. Barrel-to-frame fit is loose and the trigger return spring is in need of attention. The hammer will come to full cock if you push the trigger forward. No half cock is present. (87014-8) {ANTIQUÉ} (100/200)
2057. **N. PIEPER MODEL 1920 SEMI-AUTO PISTOL** serial #48209, 25 ACP, 2 1/16" barrel with a lightly frosted bore. This pistol retains about 75% plus original blue finish with the grip frame thinning to pewter from handling along with silvering at the rear of the receiver from cleaning, high edge wear, scattered pitting and thin freckling. The checkered hard rubber grips with light handling marks rate near excellent. The pistol includes a single magazine. (87014-7) {C&R} (100/200)

2058. **UNMARKED REPLICAS SINGLE SHOT PERCUSSION PISTOL** serial #031475, .44 cal., 5 1/2" octagon barrel with an oxidized bore. The barrel is brown with pewter overtones along with a few light pits. The lock is lightly engraved and retains strong case-hardened colors. The brass furniture is tarnished. The front sight is a brass blade with "V" notch dovetailed steel rear sight. The wood stock rates very good with light handling marks and scuffs. The metal furniture is poorly fitted to the wood. The trigger has been removed but is provided and the triggerguard is missing as is the trigger pin. Also provided is a steel ramrod. (87014-39) {ANTIQUE} (25/50)
2059. **BROWNING HI-POWER SEMI-AUTO PISTOL BY FABRIQUE NATIONALE** serial #245PY12403, 9mm, 4 3/4" barrel with a pitted bore. The metal surfaces retain about 75% original blue finish with all the loss due to scattered areas of heavy oxidation that have pitted the metal. Most of the loss is on the slide with lesser amounts on the frame and barrel. The checkered hardwood grips rate good to very good with flaking finish, light water staining and a few handling marks. The pistol features a ramp front sight and fully adjustable rear sight that is still working despite the corrosion on the screws. No magazine is provided. The pistol still functions but will need some TLC before using it. (87323-53S18702) (250/350)
2060. **COLT GOVERNMENT MODEL BARREL LOT** This lot consist of a single barrel for the Colt Government Model pistol. The barrel is 5" long with an excellent bore, is chambered for the 45 ACP and is not equipped with a link or link pin. The top of the chamber is marked "Colt 45 Auto". This Colt manufactured barrel appears to be as new with the chamber areas left in-the-white and the remainder blue finished. (87372-1A).
2061. **DAVIS INDUSTRIES MODEL D-38 DERINGER** serial #D087482, 38 Special, 2 3/4" over / under barrels with excellent bores. This pistol appears to have seen little if any use. The metal surfaces retain about 99% original chrome finish. The black textured synthetic grips rate excellent. This pistol features a crossbolt safety and manual extraction. The pistol includes an original factory box that is correctly end labeled and numbered to the gun, manual and paperwork. (87349-31) (75/125)
2062. **ROHM MODEL RG15 DERINGER** serial #44228, 22 LR, 3" over / under barrels with excellent bores. The pistol retains about 99% original chrome plating and blue finishes with scattered light handling marks. The hammer, trigger and several other small parts are finished in blue with the remaining metal surfaces plated. 2063. **TRADITIONS MODEL 1851 COLT NAVY CONVERSION REVOLVER** serial #194, 38 Special, 7 1/2" octagon barrel with a lightly oxidized bore with some fine pits. The metal surfaces retain 98% original blue finish with a light turn ring and limited high edge wear. The case-hardened frame retains strong colors with some light surface pits on the right side of the frame. The polished grip frame remains excellent. The smooth one piece walnut grip is numbered to the gun and rates excellent overall. The frame, cylinder and barrel are numbered to the gun. (87349-34) (300/500)
2064. **COLT CIVIL WAR CENTENNIAL MODEL SINGLE SHOT PISTOL** 22 Short, 6" barrel with a lightly frosted bore. This pistol is configured to resemble a downsized Colt model 1860 Army with the non-rotating cylinder bored with a single chamber. The metal surfaces retain about 90% plus black paint and gold plate with flaking paint on both sides of the faux cylinder and muzzle areas. Also present are scattered light scratches and oxidation stains. The smooth walnut grips rate very good with light dings and dents. The top front of the triggerguard is cracked completely through but is still functional. (87394-7) {C&R} (25/75)
2065. **ASTRA MODEL 1921 SEMI-AUTO PISTOL** serial #18395, 9mm Parabellum, 6" barrel with a frosted bore. This model 400 pistol retains strong finish and exhibits light use. The metal surfaces retain about 90% plus original blue finish with light high edge wear, thinning to purple grip frame and light handling marks. The checkered synthetic factory grips with Astra monograms rate good to very good with light to moderately worn diamond points and light handling marks. An E / U Astra logo and Carabineros crest appear on the forward slide and remain crisp. The slide, barrel and frame are numbered alike the caliber is simply marked 9mm. Oddly no proof marks are present but the gun is stamped "Spain". A factory two piece maroon box with "Astra Pistol Caliber 9mm" marked on the cover, single Astra marked magazine, and a second magazine with an encircled RE on the lip, that is still in the original dried packing grease, are included. (87388-5) {C&R} (300/500)
2066. **HIGH STANDARD DELUXE DOUBLE NINE CONVERTIBLE REVOLVER** serial #M043805, 22 LR / 22 W.M.R.F., 5 1/2" barrel with an excellent bore. This is a nice condition double action revolver with only light use evident. The metal surfaces of the revolver and spare cylinder retain about 99% original blue and anodize finishes with a light turn ring on both cylinders and a few light handling marks overall. The smooth hardwood grips with High Standard medallions rate excellent. The revolver includes an original factory box that is correctly end labeled and numbered to the gun and the aforementioned 22 W.M.R.F. cylinder. (87413-2) (250/350)
2067. **HIGH STANDARD MODEL B SEMI-AUTO PISTOL** serial #8416, 22 LR, 4 1/2" barrel with an excellent bore. This early pistol retains about 90% original blue finish with the grip frame thinning to purple with pewter highlights, high edge wear, silvering at the muzzle, scattered light handling marks and a few light oxidation blemishes. The pistol includes a factory box with torn edge that is correctly end labeled and numbered to the gun, single high capacity magazine, manual and paperwork. (87440-15D30492) (300/500)
2078. **RUGER SECURITY SIX REVOLVER** serial #150-59945, 357 Magnum, 4" barrel with an excellent bore. This revolver is in excellent condition. The metal surfaces retain about 99% original blue finish with a light turn ring on the cylinder that is also drifting to plum. The checkered walnut factory grips with silver Ruger Phoenix medallions rate excellent. The revolver features a black ramp front sight and fully adjustable rear sight. The revolver includes an original factory box correctly end labeled and numbered to the gun, non factory cleaning rod, manual and paperwork. (87375-3) (300/500)
2079. **UNMARKED BELGIAN CENTER HAMMER PERCUSSION SINGLE SHOT PISTOL**, .68 cal., 3 1/8" smooth bore barrel that is oxidized and pitted. This folding trigger pistol rates about very good. The metal surfaces are pewter with some brown overtones, and has scattered light oxidation stains and pitting. The lock area has light loose scroll engraving on the sides with wedges on the top and bottom. The smooth walnut grips have later applied varnish with old light handling marks and a check on the left side. The lock still correctly operates and a Belgian black powder proof is on the left side of the lock. (86889-196) {ANTIQUÉ} (150/250)
2080. **MOORE'S PAT. FIREARMS FRONT LOADING REVOLVER** serial #ED54, 30 cal. teat fire, 3 1/4" barrel with an oxidized and pitted bore. This revolver remains in good condition. The metal surfaces are pewter with brown mixed in and exhibit moderate handling wear and some light pitting. The markings on the barrel and cylinder are light but still legible. The brass frame is ochre with no silver plating finish remaining. The frame has panels of tight scroll engraving on each side with a wedge on the backstrap and highlights in the other areas. The smooth rosewood grips are good with moderate handling wear and a repaired chip on the right panel at the top. The grips, frame, cylinder, wedge and barrel are numbered alike. The mechanism is not functioning and in need of attention. (86889-205) {ANTIQUÉ} (250/350)
2081. **COLT MODEL 1877 LIGHTNING REVOLVER** serial #153931, 38 Long Colt, 6" barrel with an oxidized and pitted bore. This 1904 revolver is in poor condition with parts missing and the wrong caliber cylinder. The metal surfaces have been cleaned to pewter with scattered light oxidation blemishes and pitting. An attempt was made to remove the barrel and it left a series of scratches around the circumference. The un-numbered checkered hard rubber factory grips rate fair with heavily worn features on the left panel and light wear to the right plus a chip missing on the top front. The operating mechanism is not functioning with a number of parts removed. Seven parts are included with the gun: (4) assorted size screws, trigger spring and cylinder stop. (87309-3) {C&R} (100/200)

2075

2082. **SMITH & WESSON THIRD MODEL LADYSMITH REVOLVER** serial #19318, 22 Long, 3 1/2" barrel with an oxidized and pitted bore. This revolver has been refinished and the rear of the barrel dressed. The metal surfaces retains about 97% reapplied blue finish with the flutes of the cylinder drifting to brown, a turn ring on the cylinder and light handling marks. The un-numbered smooth walnut grips with gold S&W medallions have later applied varnish and rate very good. The rear of the barrel has been dressed off, probably to repair damage, leaving a barrel-cylinder gap of about .130" +/- . The revolver still correctly times and locks up and all appropriate parts are numbered to the gun. The markings are still visible but washed out slightly from the metal preparation. (87421-29) {C&R} (250/350)
2083. **SMITH & WESSON SECOND MODEL SAFETY HAMMERLESS TOP-BREAK REVOLVER** serial #169547, 32 S&W, 3" barrel with a near excellent bore exhibiting a few tiny pits. This revolver rates fine. The metal surfaces retain about 50% original blue finish with a fairly even amount of loss on the various parts which have worn to brown; along with scattered light oxidation blemishes and light pinprick pitting. The case-hardened colors on the trigger remain bold. The diamond checkered hard rubber grips with S&W monogram are in excellent condition with a few light handling marks. The grips and all appropriate parts are correctly numbered to the gun. Timing and lock up are excellent. (87438-8) {C&R} (200/400)
2084. **GERMAN MODEL 27 SEMI-AUTO PISTOL BY CZ** 32 ACP, 3 7/8" barrel with an excellent bore. This "Bohmische" marked pistol is in very good to excellent condition with no factory applied serial number. The metal surfaces retain about 96% original blue finish with some slight handling wear. Most of the loss is to cleaned areas of oxidation and pitting on the frame and slide. The left side of the slide and frame has ".U" 2820" electric penciled onto them. The straw colors on the hammer and trigger remain strong. The checkered synthetic grips with CZ logo are in excellent condition. The left side of the frame in front of the takedown pin has a Waffenamts eagle with the stamping under it overstruck and a German proof eagle on the chamber. The pistol includes a single magazine. (87425-12) {C&R} (250/350)
2085. **SMITH & WESSON MODEL SW9M SEMI-AUTO PISTOL** serial #BZK0011, 9mm, 3 1/4" barrel with an excellent bore. This pistol has seen very little use. The metal surfaces retain 99% original black finish and the polymer frame surfaces are excellent. The pistol includes an original factory hard case that is correctly end labeled and numbered to the gun, a pair of magazines, takedown tool, chamber flag, manual and paperwork. (87438-7) (200/400)
2086. **RUGER OLD MODEL SINGLE SIX REVOLVER** serial #21-02955, 22 LR / 22 W.M.R.F., 9 1/2" barrel with an excellent bore. This revolver has a later fitted 22 W.M.R.F. cylinder and strong condition. The metal surfaces retain about 90% plus original blue finish with high edge wear, scattered light pitting, light oxidation blemishes and handling marks. The smooth walnut factory grips with silver Ruger medallions rate good to very good with light scratches, dents and dings. The spare 22 W.M.R.F. cylinder is not numbered to the gun and has seen lighter use. The gun includes a factory yellow box used to return it from the factory after repair and also includes a felt red bag for the spare cylinder, manual and paperwork. The transfer bar safety update has been completed and the parts are included with the gun. (87421-9) (300/500)
2087. **RUGER RED EAGLE STANDARD MODEL SEMI-AUTO PISTOL** serial #6091, 22 LR, 4 3/4" barrel with an excellent bore. This mid 1950 production pistol retains strong condition. The metal surfaces retain about 80% original blue finish with the grip frame thinning to a mix of brown and pewter. The remaining surfaces have scattered light to moderate oxidation blemishes, light pitting, high edge wear, handling marks and exhibit scattered light cleaning. The checkered Delrin factory grips with red Ruger Phoenix rate very good with light handling marks. The front sight has been carefully filed into a bead configuration and the rear sight notch opened and given a slight "V" on the bottom to accommodate the new front sight configuration. The housing latch protrudes slightly from the backstrap and will need to be addressed for shooting comfort. The pistol includes a single magazine. (87441-18S18783) {C&R} (200/400)
2088. **RUGER NEW MODEL SINGLE SIX REVOLVER** serial #68-45089, 22 LR, 6 1/2" barrel with an excellent bore. The revolver remains in fine condition. The metal surfaces retain about 85% plus original blue and anodized finishes with silvering at the muzzle, high edge wear, oxidation blemishes, minor pitting and handling marks. The smooth walnut factory grips with silver Ruger Phoenix rate very good with light handling wear, scuffs and dents. The gun is equipped with a ramp front sight and fully adjustable black blade rear sight. The gun has spent some time in the field but still times and locks up correctly. (87441-14S19087) (200/400)
2089. **AVION DOUBLE ACTION REVOLVER BY BARIRA Y AZPIRI** serial #541, 32-20 W.C.F., 4 1/2" barrel with a near excellent bore exhibiting a few light pits. This revolver strongly resembles the Smith & Wesson Military & Police hand ejector series. The gun retains about 90% factory blue finish with high edge wear, a few oxidation blemishes and handling marks. The hammer has robust case-hardened colors with the trigger starting to fade from use. The diamond checkered walnut grips with gold Avion medallions rate near excellent with a few handling marks. The gun still times and locks up correctly. (87421-36) (100/200)
2090. **COLT POLICE POSITIVE SPECIAL REVOLVER** serial #54807, 32-20 W.C.F., 6" barrel with a pitted and oxidized bore. This 1912 made revolver has been refinished and has some mechanical issues. The metal surfaces retain about 97% re-applied blue finish with some limited high edge wear and light oxidation stains. The checkered aftermarket replacement grips are fashioned after the original Colt grips and rate near excellent with a few minor handling marks. The timing and lock up are functioning as does the double action but the single action notch is in need of attention. (87421-42) (150/250)
2091. **BERETTA MODEL 21A BOBCAT SEMI-AUTO PISTOL** serial #BCS04067U, 22 LR, 2 1/2" barrel with an excellent bore. This pistol has seen minimal use. The metal surfaces retain about 99% original blue and anodized finishes. The smooth walnut grips with Beretta medallions are in near excellent condition with a few light scratches and dents. The pistol includes a single magazine. (87441-1S19062) (150/250)
2092. **TAURUS MODEL 85SS REVOLVER** serial #VH35027, 38 Special, 2" full lug barrel with an excellent bore. The polished stainless steel surfaces rate very good to excellent with scattered light scratches. The pebble textured rubber grips with Taurus medallions are in excellent condition. The revolver is missing the yoke retention pin and yoke retention spring but the yoke screw is present. These parts should not be difficult to obtain and this will make a fine concealed carry gun. (87441-2S19077) (150/250)
2093. **WINCHESTER MODEL 94 LEVER ACTION CARBINE** serial #1859490, 32 Win Spl, 20" barrel with a lightly frosted very good bore. The barrel and magazine tube retain 98% original blue showing a few minor handling marks. The receiver retains 99% reapplied blue with light pitting and polish marks under the new finish. The walnut stock and forearm are a modern replacement and rate excellent though the buttstock is a bit ill-fit around the frame and upper tang. There is a side mounted scope base on the left side of the receiver. (127298-1) (300/500)
2094. **WINCHESTER MODEL 94 LEVER ACTION CARBINE** serial #3415965, 30-30, 20" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with several light scratches. 2095. **REMINGTON MODEL 521T JUNIOR SPECIAL BOLT ACTION RIFLE** 22 S,L,LR, 25" barrel with a bright excellent bore. The metal surfaces retain 60% original blue toning towards brown with multiple minor scratches and dings. The walnut pistolgrip target stock rates very good to near excellent with multiple minor handling blemishes and is fitted with sling swivels and a short accessory rail and comes with a military style leather sling. It has a front blade and Lyman aperture rear sights. (127333-3) {C&R} (200/400)

2096. **CUSTOM SPRINGFIELD ARMORY MODEL 1903 BOLT ACTION RIFLE** serial #224930, 30-06, 24" barrel with an about excellent bore. The metal surfaces are 98% refinished gloss blue with some oxidation towards the muzzle and on the front sight band, the receiver toning to brown and a couple of tiny splatters of white paint on the barrel and forend of the stock. The floorplate has freckling oxidation and the cleaned bolt handle has some oxidation as well. The heavy pistolgrip target stock rates very good to near excellent with several minor dings and scratches and is fitted with sling swivels. The red rubber ventilated recoil pad is in near excellent condition but is fitted slightly off center on the stock. It has the proper Lyman 48S rear aperture sight and ramp mounted front bead sight. (127333-6) (300/500)
2097. **CUSTOM REMINGTON MODEL 03-A3 BOLT ACTION TARGET RIFLE** serial #3953727, 30-06, 26 1/2" custom heavy target barrel with a bright excellent bore. The custom Douglas Premium barrel retains 98% original blue with a single moderate scratch and a few other faint handling marks. The receiver retains 99% refinished matte blue and the floorplate and triggerguard show original blue with some scattered light freckling and a few tool marks by the retention screws. The heavy hardwood pistolgrip target stock rates very good to near excellent with multiple minor scratches and dings and a few small spots of flaking finish. The stock is set up for a right handed shooter and features a checkered palm swell pistolgrip with thumb rest, a cheekpiece, a beavertail forend with a short accessory rail fitted with a handstop and sling swivels, a rear sling swivel, and a Pachmayr rubber buttpad. The Redfield International Match front sight has a small deep scratch and is mounted to a block; there are also blocks fitted to the barrel and receiver for mounting a scope, and a Lyman 48S 03-A3 rear aperture sight fitted to the receiver. Overall a very nice gun that appears ready for some long range target shooting. (127243-6) (300/500)
2098. **WALTHER MODEL TPH SEMI-AUTO PISTOL BY INTERARMS** serial #G000371, 25 ACP, 2 3/4" barrel with a bright excellent bore. The metal surfaces retain 99% original blue. The checkered black plastic grips rate excellent. This gun appears like new and comes with its original black plastic case correctly end-labeled and numbered to the gun, two finger extension magazines, test target and manual. (126520-4443) [Richard "Stretch" Kennedy Collection] (250/450)
2099. **WALTHER MODEL TPH SEMI-AUTO PISTOL BY INTERARMS** serial #F000858, 25 ACP, 2 3/4" barrel with a bright excellent bore. The stainless steel surface rates about excellent showing a couple of specks of oxidation on the slide and a few minor light scratches. The checkered black plastic grips rate near excellent with a couple of light scratches. This pistol appears to have seen little use and comes with an unlabeled factory plastic case and a manual. (126520-4343) [Richard "Stretch" Kennedy Collection] (250/450)
2100. **WINCHESTER MODEL 94 LEVER ACTION CARBINE** serial #2873351, 32 Win Spl, 20" barrel with a bright excellent bore. The barrel, magazine tube and action retain 99% refinished blue with a few light scratches, a couple of small spots of oxidation and some freckling on the lever. The receiver retains 85% reapplied blue showing some flaking towards brown with some light pinprick pitting and multiple light scratches. The walnut stock and forearm rate very good plus and appear to have been lightly cleaned with an added finish showing several minor dings and scratches and leaving the buttplate slightly proud of the wood. The front sight hood is not present. (127298-9) (200/400)
2101. **MOSSBERG MODEL 151M-C SEMI-AUTO RIFLE** 22 LR, 20" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with a couple of small spots of oxidation and several light scratches. The two-piece Mannlicher pistolgrip stock rates near excellent showing a ding on the left side on the wrist and several minor handling marks. The gun is fitted with a hard rubber buttpad, a front aperture sight with four folding posts that is missing its hood and a rear leaf sight. The rear sling swivel base is present (the front base is integrated with the stock band), but the swivels are absent. A very nice original gun. (127272-13) {C&R} (150/250)

The metal surfaces retain about 99% original black finish. The wood stock rates excellent. The rifle is configured after the late WWII and later Korean war version with faux bayonet lug, adjustable rear sight and rotating safety. The rifle includes a factory box that is correctly end labeled to the gun but incorrectly numbered. The number is off by three digits and whether this is a factory error or the gun ended up in the wrong box is unknown. Also included is a pair of ten round magazines and manual. If you love shooting the carbine but find it a little pricey, this is the answer to your dilemma. (87427-15) (250/350)
2266. **JAPANESE TYPE 99 "LAST DITCH" BOLT ACTION RIFLE BY TOYO ARSENAL** serial #28003 (series 35), 7.7 mm Arisaka, 26" barrel with an excellent bore. The late-war milled metal surfaces retain about 90% original blue toning to brown. The two-piece Asian hardwood stock has been duffle-cut and missing the front handguard, the wood shows light handling marks in an added gloss varnish. The mum has been removed, the bolt is numbered to the gun. Rifle is equipped with a plain front sight, fixed rear sight and wood buttplate. A very good "last ditch" Arisaka rifle. (1X57142-33) {C&R} (100/200)
2267. **ISAAC HOLLIS AND SONS DOUBLE HAMMERGUN** 16 ga, 28 1/4" barrels choked cylinder and cylinder with a dark bore having pitting its full length. The barrels have been cleaned to a bright gunmetal gray having a few light spots of oxidation and pits. The locks and frame are embellished in a light floral scroll engraving and have toned to a gunmetal gray. The round knob buttstock and forend rate good to very good displaying dings, scratches, chipping at the edges and a few cracks emanating from the buttstock. There has been a plastic diamond insert added to the comb line. The hammers are in fair condition occasionally getting hung up; the right hammer spur has been reattached by a weld. (1X176916-51) {C&R} (40/60)
2268. **FN MODEL 1912 BOLT ACTION RIFLE** 22 LR, 24" barrel with a very good bright bore. The barrel retains 85% evenly thinning original blue finish, having light oxidation stains present. The checkered walnut round knob pistolgrip stock rates very good plus having a few light dings and scratches from years of use. The bolt has been completely disassembled but is included. (1X172598-36) {C&R} (50/100)
2269. **SAVAGE MODEL 4 BOLT ACTION RIFLE** 22 LR, 24" barrel with a near excellent bore. The metal surfaces retain 85% evenly thinning original blue finish having light oxidation stains and light scratches. The walnut pistolgrip stock rates very good displaying a few light handling marks and some added finish present. The rifle wears a front post sight and an adjustable rear aperture sight. (1X177192-10) (50/100)
2270. **ELGIN ARMS CO SIDELOCK DOUBLE SHOTGUN** serial #S13761, 12 ga, 30" matted rib barrels choked full and improved modified with very good bright bores. The barrels retain 80% evenly thinning added blue finish displaying some very light impact marks and surface oxidation. The boxlock frame retains 85% original case-hardened colors. The checkered walnut pistolgrip buttstock and forend rate very good as refinished, displaying just a few light dings and scratches. The butt wears a walnut buttplate which has a few light cracks. The gun features double triggers, extractors and an automatic safety. (1X177285-3) (100/200)

2271

2271. **JAPANESE ARISAKA TYPE 38 BOLT ACTION RIFLE VIET CONG CONVERSION** serial #25194, 6.5 Arisaka, 19" barrel with an about very good lightly pitted bore. The metal surfaces retain about 80% arsenal blue with light overall fading, pitting and handling wear. The military stock has been shortened and modified and was painted a simple woodland camo pattern. The buttplate has been removed and original sling swivel cutout filled, extra holes were added for newer style swivels, but they are not present. According to the consignor this rifle was a Vietnam-era war trophy and had been modified and used by the Viet Cong. No evidence can be found that Arisakas were used in this fashion on a large scale, and it is likely that smaller factions may have had some of these type arms at their disposal left over from the Second World War. (3X45262-2) (250/450)

2272. **L.C. SMITH O GRADE SIDELOCK DOUBLE SHOTGUN** serial #62309, 16 ga, 24 3/8" damascus matted rib barrels choked modified and improved modified with bright excellent bores. The barrels display a good damascus pattern having toned to a pewter brown patina. The locks and frame have tarnished to a pewter patina having traces of oxidation stains present. The checkered walnut round knob pistolgrip buttstock and forend rate very good having scattered dings and scratches over a strong original finish. The gun features double triggers, extractors and automatic safety. (1X177082-19) {C&R} (275/375)
2273. **SPORTERIZED ENFIELD SMLE NO.1 MK.III BOLT ACTION RIFLE** serial #Z5498, 25 1/4" barrel with a good bore which exhibits pitting and oxidation its full length. The metal surfaces retain 85% reapplied blue finish displaying light handling marks and scattered light oxidation. The smooth walnut stock rates near very good, but has some minor chips and cracks as well as a few small arsenal repairs; the stock also exhibits some light flaking of its varnish, as well as some general light scratches and scuffs. The rifle features its military rear sight, but a ramp front sight has been installed in place of the original military configuration. Included with the rifle are a leather sling and a detachable box magazine. (1X137075-S18037) (25/75)

2274. **FOWLER CONVERTED U.S. CIVIL WAR MUSKET** 20 Gauge, 30" barrel with a dark, oxidized bore. The metal surfaces rate good plus and exhibit a general light brown patina, with some light pitting present around the muzzle as well as the breech; the triggerguard and buttplate exhibit a considerable degree of light pitting. The top of the barrel still displays its original "S.E.B. Steel" and "VP Eagle" markings, but has also been stamped with Belgian proofmarks, probably acquired during the conversion. The lockplate still displays its "U.S." marking, but the maker mark has become illegible due to fading; while the lockplate is original, the hammer is more modern and was likely replaced as part of the musket's conversion. The smooth walnut half-stock rates good, but exhibits several light chips and cracks, as well as other general handling marks; the buttplate appears original and is stamped "U.S.". The fowler features a bead front sight and includes a non-original ramrod. (1X137106-70) {ANTIQUÉ} (275/375)
2275. **GSG KALASHNIKOV "REBEL" SEMI-AUTO RIFLE** serial #A503376, 22 LR, 18 1/2" barrel with an excellent, bright bore. The metal surfaces rate excellent and retain about 99% of their factory distressed appearance. The smooth walnut furniture rates excellent and, aside from the factory distressing, exhibit no marks. Included with the rifle are two 24 round magazines, tools, manual and papers, and the factory original box end-labeled to the gun. (1X137307-33) (175/275)
2276. **IVER JOHNSON SECOND MODEL 32 DA TOP BREAK REVOLVER** serial #A26477, 32 S&W, 3" barrel with a dark, oxidized bore. The metal surfaces rate good but have lost much of their factory original nickel plated finish, exhibiting widespread flaking and heavy oxidation. The checkered black synthetic "Owl Head" grips rate good but exhibit significant heavy wear from previous handling. (2X136940-178) {C&R} (5/10)
2277. **IVER JOHNSON "U.S. REVOLVER COMPANY" TOP BREAK REVOLVER** serial #64506, 32 S&W, 3" barrel with a very good bore which exhibits light oxidation throughout. The metal surfaces rate near good but have lost most of their factory original nickel plated finish, exhibiting extensive flaking and heavy dark oxidation throughout. The checkered black synthetic grips rate near good but exhibit noticeable chips, with a significant section missing from the lower right portion of the left panel, as well as a crack in the butt of the right panel and general light residue from previous handling. (2X136940-206) {C&R} (5/10)
2278. **IVER JOHNSON MODEL 1900 DOUBLE ACTION REVOLVER** serial #A14063, 22 LR, 2" octagon barrel with an oxidized bore. The metal surfaces rate good but have lost most of their factory original blued finish, exhibiting areas of light pitting throughout. The checkered black synthetic "Owl Head" grips rate very good, but exhibit chips in the Iver Johnson owl logos as well as gouges along the butts and bases of the panels. The revolver requires some mechanical attention as the takedown-pin is frozen in the revolver. (2X136940-108) {C&R} (10/20)
2279. **IVER JOHNSON SECOND MODEL 32 DOUBLE ACTION TOP BREAK REVOLVER** serial #G7787, 38 S&W, 3" barrel with a good bore which exhibits heavy dark oxidation throughout. The metal surfaces rate near very good but retain very little of their factory original blued finish, having converted to a gunmetal gray color. The checkered black synthetic "Owl Head" grips rate very good but exhibit considerable worn checkering as well as some minor light handling marks. The revolver requires some mechanical attention as the cylinder stop fails to lock the cylinder in place; the trigger occasional binds, the hammer will not cock single action, and the cylinder is not secured to the revolver. (2X136940-213) {C&R} (5/10)
2280. **IVER JOHNSON SECOND MODEL 32 DA TOP BREAK REVOLVER** serial #A74369, 32 S&W, 5" barrel with a very good plus bore which exhibits some minor light oxidation. The metal surfaces rate very good and retain about 70% of their factory original nickel plated finish, exhibiting some flaking predominantly along the barrel, and displaying gray to brownish-gray color. The checkered black synthetic "Owl Head" grips rate very good plus, but do exhibit a few minor light handling marks along the bases as well as some general light signs of previous handling. The hammer will not cock in single action. (2X136940-192) {C&R} (10/20)
2281. **IVER JOHNSON SECOND MODEL 32 DA TOP BREAK REVOLVER** serial #T34808, 38 S&W, 3 1/2" barrel with a very good plus bore which exhibits minor light oxidation. The metal surfaces rate near very good and retain about 40% of the factory original nickel plated finish, but exhibit significant flaking and associated light oxidation along the cylinder, with more extensive flaking and oxidation present along the barrel. The checkered black synthetic over-sized "Owl Head" grips rate very good but exhibit noticeable signs of previous handling as well as a few light handling marks along the bases, and numerous scratches along the butt. (2X136940-41) {C&R} (10/20)
2282. **IVER JOHNSON SECOND MODEL 38 DA TOP BREAK REVOLVER** serial #G33455, 38 S&W, 3 1/4" barrel with a very good bore which exhibits oxidation throughout. The metal surfaces rate near very good and retain about 30% of their factory original nickel plated finish, exhibiting considerable flaking and subsequent general oxidation. The checkered black synthetic "Owl Head" grips rate near very good, but exhibit what appear to be paint stains, some light handling marks, and residue from previous handling. (2X136940-216) {C&R} (10/20)
2283. **CHICAGO ARMS COMPANY DOUBLE ACTION TOP BREAK REVOLVER** serial #28059, 32 S&W, 3" barrel with a heavily oxidized bore. The metal surfaces rate very good plus and retain about 85% of their factory original nickel plated finish, exhibiting some flaking of the barrel around the cylinder which has since oxidized. The checkered black synthetic grips rate near excellent and exhibit only faint signs of previous handling. The revolver requires some mechanical attention as the trigger will not return itself. In addition, the grip screw is missing from the revolver. (2X136940-320) {C&R} (5/10)
2284. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS TOP BREAK REVOLVER** serial #D78547, 38 S&W, 3 1/4" barrel with a near very good bore which exhibits oxidation throughout. The metal surfaces rate near very good but have lost most of their factory original nickel plated finish, exhibiting a mottled-gray color with a brownish-gray patina having developed along the grip straps and butt. The checkered black synthetic "Owl Head" grips rate very good plus, exhibiting only some minor light signs of previous handling. (2X136940-217) {C&R} (10/20)
2285. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS TOP BREAK REVOLVER** serial #R42737, 38 S&W, 3 1/2" barrel with a heavily oxidized bore. The metal surfaces rate good but retain an extremely little amount of factory original nickel plated finish, having since acquired a mottled-gray complexion with some oxidation along the barrel. The checkered black synthetic "Owl Head" grips rate very good plus but exhibit obvious worn checkering. (2X136940-60) {C&R} (10/20)
2286. **IVER JOHNSON THIRD MODEL 38 D.A. TOP-BREAK REVOLVER WITH RAILWAY EXPRESS MARKING** serial #H42160, 38 CF, 3 1/4" barrel with a very good bore showing several spots of pitting. The metal surface is a gray and brown patina with a few remnants of original blue in protected areas, a little light pitting, and a few impact marks on the butt. The hard rubber grips with "IJ" monogram and owl's head logo rate about excellent showing a few minor scratches and dings. The cylinder is un-numbered; the barrel and frame are numbered alike. This gun once belonged to the American Railway Express Co. as the backstrap is marked "AM. RY. EX. CO. 8121". (1X127052-8) {C&R} (50/100)
2287. **SPANISH EIBAR RUBY SEMI-AUTO PISTOL** serial #38114, 32 ACP, 3 1/4" barrel with a lightly frosted bore showing a few pits. The metal surface is a gray patina with some oxidation and light pitting, and some remnants of original blue in protected areas. The hard rubber checkered grips rate very good to near excellent with some light handling wear. The gun is fitted with a lanyard ring. (1X127191-4) {C&R} (50/100)
2288. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS REVOLVER** serial #D31520, 38 CF, 3 1/4" barrel with a moderately pitted bore. The metal surface is a dark gray patina with brown highlights and spotty oxidation and oxidation staining. The pearl grips rate near excellent with a couple of tiny chips on the edges and a few faint handling marks. The cylinder is not numbered; the barrel is numbered differently than the frame but is off by one digit and is possibly a factory error. (1X127127-2) {C&R} (50/100)

2289. **JIEFFECO NEW MODEL SEMI-AUTO PISTOL BY ROBAR OF BELGIUM** serial #49361, 25 ACP, 2 1/2" barrel with a lightly frosted bore. The metal surfaces on this Davis-Warner imported pistol retain 90-95% original blue with a couple of spots worn to gray, some fading to brown on the grip safety backstrap, and a little light freckling. The birds-head maple grips rate excellent. (1X127327-11) {C&R} (100/200)
2290. **U.S. REVOLVER CO. SOLID FRAME TOP-BREAK REVOLVER** serial #E8626, 32 CF, 6" barrel with a very good bore showing some oxidation primarily toward the muzzle. The nickel finish rates good to very good with the loss mostly due to areas flaking on the frame that are now oxidized. The hard rubber grips are numbered to the gun and rate very good showing some light wear and a few minor handling blemishes. The cylinder pin is frozen in the gun, but the cylinder operates freely. (1X127052-12) {C&R} (50/100)
2291. **SMITH & WESSON 32 HAND EJECTOR MODEL 1903 REVOLVER** serial #7775, 32 S&W Long, 6" pinned barrel with frosted lightly pitted bore. The metal surfaces retain 65-70% original nickel with the bulk of the loss due to a worn flaking finish on the cylinder and flats of the frame. There are also a few small spots of oxidation and pitting and some flaking on the gripstrap. The trigger and hammer are gray with a few hints of original case colors. The custom mother-of-pearl grips are larger with an added aluminum frame running around the backstrap and butt of the gun. The grips are in excellent condition with a couple of minor chips on the edges. The gun's frame, barrel and cylinder are numbered alike. (2X127035-42) (100/200)
2292. **UNMARKED WHITNEY POCKET MODEL PERCUSSION REVOLVER** 31 cal, 5" octagon barrel with a very good oxidized bore. The metal surfaces have been cleaned to bright gunmetal gray, so much so that there are no visible markings anywhere on the arm. The revolver shows light pinprick pitting throughout and a few moderate pits. The brass triggerguard has toned to a bright ochre patina with light tarnishing. The two-piece walnut grips rate good with a repaired chip running along the back edge of the right grip and light handling marks here and there. The gun times and locks smartly. (1X157292-45) {ANTIQUÉ} [Tom Varrell Collection] (100/200)
2293. **HIGH STANDARD FRAME AND BARREL** serial #6492, 22 LR, 6 3/4" barrel with a bright excellent bore. Though it is not marked, based on the serial # this is likely a Model B frame. The metal surfaces retain 70% original blue with areas faded to gray, with some pitting and some scattered freckling. (1X127325-2)
2294. **UNMARKED SPUR TRIGGER DERINGER** serial #148, 32 RF, 2 3/4" part round part octagon barrel with a pitted oxidized bore. The barrel retains about 80% original nickel flaking to gunmetal with spots of light pitting and surface oxidation. The frame is dull gunmetal with scattered pitting and handling marks with generous amounts of original nickel on the gripstraps. The brown resin birdshead grips rate good overall showing lightly worn edges and handling marks with numerous pin size holes in the right panel. The grips do not seat properly and could be later replacements. The action a bit loose but functional. (2X56416-20) {ANTIQUÉ} (40/80)
2295. **STEVENS DIAMOND NO. 43 SECOND ISSUE PISTOL** serial #42534, 22 LR, 6" barrel with a lightly frosted bore. The barrel is a mottled mix of mostly gray with original blue and brown. The iron frame retains about 90% original nickel finish with high edge wear, oxidation staining, and flaking and bubbling finish. The un-numbered smooth walnut grips are in very good to excellent condition with light handling marks. Barrel to frame fit is loose, the extractor is missing, the action is functional and the barrel is numbered to the gun. (1X87327-8) {C&R} (50/100)
2296. **STEVENS-GOULD NO. 37 SINGLE SHOT PISTOL** serial #7536, 22 LR, 6" barrel with an excellent bore. The metal surfaces of this pistol have flaked to mix of brown and gray with scattered oxidation blemishes, pitting and light handling marks. The only original blue found is in the protected corners and on the triggerguard. The smooth walnut grips are numbered to the gun and rate very good with flaking finish and light handling marks. The frame to barrel fit is tight and the barrel is numbered to the gun. There are several anomalies found on this gun including No. 35 style sights, no bushing on the firing pin and the plain un-checked grips. (1X87136-18) {C&R} (175/275)
2297. **BACON ARMS COMPANY POCKET REVOLVER** serial #399, 32 RF Long, 4" barrel with a lightly frosted bore. This is a very good condition Bacon revolver. The revolver retains about 95% original nickel plating with most of the loss on the frame around the window and on the partially fluted cylinder. There are also light oxidation blemishes and pinprick pitting scattered on the metal surfaces. The smooth un-numbered walnut birds head factory grips are in near excellent condition with a few light handling marks and loose escutcheons. The bolt is in need of attention and the removable ejector rod is missing but all numbers correctly match. This variation has "Cast Steel" on the barrel and utilizes "Ct." abbreviation for Connecticut. This is a fine example of a Pocket Revolver. (2X86229-138) {ANTIQUÉ} [Elliott Riggs Collection] (300/500)
2298. **UNMARKED "ECLIPSE" SINGLE SHOT DERINGER** serial #616, 22 Short, 2 1/2" smoothbore barrel with heavy oxidation and pitting. This tiny pistol is in very good condition. The pistol retains about 70% original nickel plated finish with scattered light freckling and the two barrel flats have later applied engine turning. The smooth walnut grips rate about good with later applied finish covering scattered light dents, dings and scratches. The number "418" has been stamped on the outside of the left panel. The pistol still functions with a tight barrel-to-frame fit but slight looseness in the barrel detent. (2X86229-522) {ANTIQUÉ} [Elliot Riggs Collection] (50/100)
2299. **TOY PISTOL LOT** This lot consist of a single "Hero" toy cap pistol in very good condition. The metal surfaces are gray with a few oxidation blemishes. The hammer has a large flat face to strike a period paper cap that is fitted into a "U" shaped receptacle on the frame. The pistol is cast in two pieces to resembles a top break revolver and measures about 5" long x 2 1/2" high. (2X86229-562)
2300. **REPLICA TIPPING & LAWDEN PEPPERBOX PISTOL** (non-firing) 2 3/4" partially bored four barrel cluster. The barrels are a black colored nonferrous metal that is starting to thin on the high edges. The brass frame is engraved with natural finish and black shading. The foliate synthetic grips are in excellent condition. There are no markings on the pistol. (2X86229-344) {NON-GUN} [Elliott Riggs Collection] (20/40)
2301. **TIPPING & LAWDEN MODEL 2B PEPPERBOX PISTOL** serial #4069, 30 RF, 3" four barrel cluster with moderately oxidized and pitted bores. This is a good condition pepperbox that has parts and mechanical issues. The barrels are a brown patina with surface pitting and oxidation blemishes. The frame is ochre with scattered light handling marks. The hammer assembly and trigger are brown with a few traces of color on the hammer body. The checkered gutta-percha replacement grips are in poor condition with handling marks on the exterior, poor fit to the frame and signs of repairs on the inside around the bottom grip retainer. They were originally equipped with a screw and escutcheons which have pulled through the left panel causing considerable damage on the inside. It appears an attempt was made to modify the base of these replacement grips to utilize the Tipping & Lawden retention system with poor results. The number "297" is stamped on the base of the butt and appears to be later applied inventory number. The hammer is in need of mechanical attention, the frame screws all have slot damage and barrel-to-frame fit is loose. (2X86229-383) {ANTIQUÉ} [Elliot Riggs Collection] (25/75)
2302. **IVER JOHNSON SECOND MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #Q60115, 38 S&W, 3 1/4" barrel with a near good bore which exhibits light oxidation and some minor pitting. The metal surfaces rate near very good, but retain very little of their factory original blued finish, having since faded to a brown-gray patina. The checkered black synthetic "Owl Head" grips rate excellent and exhibit only some faint evidence of handling. (1X136940-175) {C&R} (25/75)
2303. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS DOUBLE ACTION ONLY TOP BREAK REVOLVER** serial #D24252, 38 S&W, 3 1/4" barrel with a very good bore which exhibits some spots of light oxidation. The metal surfaces rate near very good and retain about 30% of their factory original nickel plated finish, but exhibit numerous small instances of flaking giving way to oxidation, predominantly along the left side of the frame. The left side of the barrel is stamped "Property of Adams Express Co.". The checkered black synthetic "Owl Head" grips rate very good plus, but exhibit a light ding in the butt of the right panel, as well as a some minor wear and a few minor handling marks. (1X136940-129) {C&R} (25/75)

2304. **IVER JOHNSON THIRD MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #H14626, 38 S&W, 3 1/4" barrel which exhibits areas of heavy oxidation. The metal surfaces rate good but retain little of their factory original blued finish, exhibiting fading to gunmetal along the barrel and cylinder, with a general mottled brown-gray patina; the cylinder exhibits several turn rings. The backstrap is stamped "AMREX", bordered by a five-pointed star on either side. The checkered black synthetic "Owl Head" grips rate excellent and exhibit only a few negligible handling marks. (1X136940-127) {C&R} (25/75)
2305. **IVER JOHNSON "U.S. REVOLVER CO." HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #39658, 32 S&W, 5" barrel with a good bore which exhibits light pitting and oxidation. The metal surfaces rate near good, but retain none of their factory original finish, exhibiting mottled brownish-gray patina with some spots of minor oxidation and some faint pitting. The checkered black synthetic grips rate very good, but exhibit some light handling marks, as well as "VA" carved into the left grip panel. (1X136940-240) {C&R} (75/150)
2306. **IVER JOHNSON "U.S. REVOLVER CO." HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #A35036, 32 S&W, 3" barrel with a moderately oxidized and pitted bore. The metal surfaces rate good, but display a strong brown patina in place of the factory original finish. The checkered black synthetic grips rate near very good, but exhibit several light handling marks, as well as a chip missing from the butt of the right panel and a negligible chip missing from the "U.S." logo on the right grip panel. (1X136940-230) {C&R} (25/75)
2307. **IVER JOHNSON THIRD MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #A94854, 32 S&W, 4" barrel with an excellent, bright bore. The metal surfaces rate good and retain about 30% of their factory original blued finish, but exhibit considerable fading to a mottled brown patina with some areas displaying gunmetal. The checkered black synthetic "Owl Head" grips rate very good and exhibit only a few minor handling marks. (1X136940-42) {C&R} (25/75)
2308. **IVER JOHNSON THIRD MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #H20240, 38 S&W, 4" barrel with a good bore which exhibits light oxidation throughout. The metal surfaces rate near very good and retain about 80% of their blued finish, but exhibit some light pinprick pitting along the barrel and frame, as well as multiple light scratches along the cylinder. The smooth walnut oversized grips rate very good, but exhibit some minor handling marks, as well as a 1" crack running down the spine of the walnut grip. (1X136940-143) {C&R} (25/75)
2309. **IVER JOHNSON "U.S. REVOLVER CO." HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #A20797, 32 S&W, 3" barrel with a very good plus bore which exhibits a few spots of light oxidation. The metal surfaces rate very good, but are covered by a layer of minor brown patina. The checkered black synthetic grips rate very good plus, but are slightly ill-fitting to the revolver and exhibit a few minor handling marks; the left grip panel is a replacement, featuring the Iver Johnson "Owl Head" logo. The revolver is missing its front sight. (1X136940-228) (25/75)
2310. **IVER JOHNSON THIRD MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #A86325, 32 S&W, 4" barrel with a near excellent, bright bore. The metal surfaces rate near very good and retain about 40% of their factory original blued finish but exhibit considerable fading and loss, with the barrel exhibiting light to bright pewter color along with some instances of minor surface oxidation; the frame exhibits more extensive minor light surface oxidation. The checkered black synthetic "Owl Head" grips rate very good plus but exhibit some signs of previous handling. (1X136940-183) {C&R} (25/75)
2311. **IVER JOHNSON "U.S. REVOLVER CO." DOUBLE ACTION REVOLVER** serial #D35909, 22 LR, 4 1/2" barrel with a near excellent, mostly bright bore. The metal surfaces rate good, although much of its original bright nickel plated finish has dulled; the metal surfaces exhibit several spots of light surface oxidation, as well as light handling marks. The checkered black synthetic grips rate near very good, but exhibit some light handling marks and wear, as well as sizeable chips missing from the butt of each grip panel. The revolver requires some mechanical attention as the hammer will not cock in either single or double action. (1X136940-238) {C&R} (10/20)
2312. **IVER JOHNSON SECOND MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #F99093, 32 S&W, 3" barrel with a very good bore which exhibits some minor pitting and oxidation. The metal surfaces rate good and retain but retain little of their factory original blued finish, exhibiting general fading to a light brown patina, with some silvering around the muzzle. The checkered black synthetic "Owl Head" grips rate excellent and exhibit only a few negligible handling marks. (1X136940-271) {C&R} (25/75)
2313. **IVER JOHNSON SECOND MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #A45072, 32 S&W, 3" barrel with a near excellent, bright bore. The metal surfaces rate near very good, but retain extremely little of their factory blued finish, thinning to gunmetal with some light brown patina along the barrel; the cylinder exhibits several bright scratches. The checkered black synthetic grips rate excellent and exhibit only a couple of negligible marks. (1X136940-285) {C&R} (25/75)
2314. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS DOUBLE ACTION ONLY TOP BREAK REVOLVER** serial #D63374, 38 S&W, 3 1/4" barrel with a very good plus bore which exhibits some spots of light oxidation. The metal surfaces rate very good plus and retain about 90% of their factory original nickel plated finish, but exhibit some areas of minor flaking. The genuine mother-of-pearl grips rate near excellent, exhibiting only an extremely small chip missing from the right grip panel. (1X136940-254) (50/100)
2315. **IVER JOHNSON THIRD MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #G20764, 32 S&W, 3" barrel with a good bore which exhibits heavy oxidation. The metal surfaces rate good plus, but display a slight brownish-gray patina in place of the factory original finish, exhibiting some minor scratches along the frame. The checkered black synthetic grips rate near excellent, exhibiting only a few minor handling marks. (1X136940-177) {C&R} (25/75)
2316. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS DOUBLE ACTION ONLY TOP BREAK REVOLVER** serial #D72300, 38 S&W, 3 1/4" barrel with a good bore which exhibits some light pitting and oxidation. The metal surfaces rate very good and retain about 90% of their factory original nickel plated finish, but exhibits some flaking along the barrel, giving way to light oxidation. The checkered black synthetic "Owl Head" grips rate excellent. (1X136940-48) {C&R} (25/75)
2317. **IVER JOHNSON SECOND MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #1375, 38 S&W, 4" barrel with a very good bore which exhibits light oxidation throughout. The metal surfaces rate very good and retain about 90% of their factory original blued finish, but exhibit pinprick pitting, as well as silvering around the muzzle and along the bore. The smooth walnut oversized grips rate very good plus, but exhibit several light handling marks. The front sight has been ground down and shortened from its original factory configuration. (1X136940-321) (25/75)
2318. **IVER JOHNSON FIRST MODEL SAFETY HAMMER DOUBLE ACTION REVOLVER** serial #26609, 32 S&W, 3" barrel with a dark, oxidized bore. The metal surfaces rate very good and retain about 85% of their factory original nickel plated finish, but exhibit some areas of flaking as well as several light handling marks. The checkered black synthetic "Owl Head" grips rate very good plus, but exhibit a few minor handling marks. The revolver requires some mechanical attention as it fails to cock in either single or double action. (1X136940-137) {C&R} (10/20)
2319. **IVER JOHNSON THIRD MODEL SAFETY HAMMER DOUBLE ACTION TOP BREAK REVOLVER** serial #G83380, 32 S&W, 3" barrel with a dark, oxidized bore. The metal surfaces rate very good plus and retain about 96% of their reblued finish, but exhibit some minor marks along the barrel; the frame displays a beautiful rich plum tint. The checkered black synthetic "Owl Head" grips rate very good, but exhibit a couple of light cracks along the butt of the grip panels. (1X136940-249) {C&R} (25/75)
2320. **IVER JOHNSON SECOND MODEL SAFETY HAMMERLESS DOUBLE ACTION ONLY TOP BREAK REVOLVER** serial #D57386, 38 S&W, 6" barrel with a good bore which exhibits oxidation. The metal surfaces rate very good plus and retain about 80% of their factory original nickel plated finish, but exhibit some light pitting along the barrel and topstrap. The checkered black synthetic "Owl Head" grips rate excellent and exhibit only a few negligible handling marks. (1X136940-126) {C&R} (25/75)

2321. **MERIDEN FIREARMS DOUBLE ACTION REVOLVER** serial #160391, 32 S&W, 3" barrel with a good plus bore which exhibits a few spots of scattered light oxidation. The metal surfaces rate near very good and retain about 60% of their factory original nickel plated finish, but exhibit some flaking along the cylinder and barrel. The checkered black synthetic grips rate very good plus, but exhibit a couple of dings in the right side panel. The hammer does not hold in single action; the trigger must occasionally be manually reset after firing. (1X137106-38) {C&R} (15/30)

2436. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 3/8" overall with a 15 3/4" stopped fuller blade marked with a lightly fading "S A / [ordnance bomb] / 1906" on the reverse side and "U.S. / 126821" on the obverse side. The bright finished blade has faded to gun metal with scattered oxidation staining. The hilt and part of the ricasso retain about 70% original blue toning to brown with some light oxidation staining. The rough finished walnut grips rate about very good with moderate wear and handling marks. The M1910 scabbard rates good to very good and is equipped with a lightly fading sewn cover with a moderately scuffed and crazed brown leather tip with separated seams and a wire double belt hook. (57241-144U) [Larry Kaufman Collection]
2437. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1911" on the reverse side and "U.S. / 496299" on the obverse side. The blade has a cloudy gun metal finish with brush marks from being cleaned and remnants of oxidation staining and a few pinprick pits. The hilt and part of the ricasso have an overall gray and brown patina with light silvering along the edges. The rough finished walnut grips rate about very good with the vertical milled marks almost smooth and a few light chips along the edges. The M1910 scabbard rates very good and is equipped with a faded woven cover with a brown leather tip showing modest scuffing and a small hole at the point, stitching remains intact and a wire double belt hook. (57241-144V) [Larry Kaufman Collection]
2438. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1908" on the reverse side and "U.S. / 245515" on the obverse side. The blade remains bright overall with scattered oxidation staining and light pinprick pitting. The hilt and part of the ricasso bear an overall dark brown patina with traces of original blue and scattered fine oxidation staining. The rough finished walnut grips rate fair becoming somewhat loose showing wear with a thin crack through the left scale and "L5 1" stamped in the right scale. The M1910 scabbard rates very good and is equipped with a faded woven cover with light stains and stenciled initials on the front over the cover along with a wire double belt loop, brown leather tip having intact seams, a shallow incision in the rear of the tip and light scuffing. (57241-144W) [Larry Kaufman Collection]
2439. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1919" on the reverse side and "U.S. / 1072089" on the obverse side. The blade retains 95-97% original blue with minor light chips along the main edge and lights scabbard wear along the tip and high edges. The ricasso and hilt bear a dull gray and brown patina with brighter gray wear along the edges of the guard. The rough finished walnut grips rate good to very good with a few minor chips along the edges and moderate wear to the reverse scale. The M1910 scabbard rates very good plus with a lightly fading sewn cover with fading number written in ink on the rear of the belt loop, a lightly scuffed black leather tip with intact seams and a wire double belt hook. (57241-144X) [Larry Kaufman Collection]
2440. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The blade remains overall bright with some sparse pinprick pitting along the fullers and oxidation staining along the tip. The hilt has toned to brown overall with light wear along the edges and contact points along with a few light impact marks. The rough finish walnut grips rate very good showing light wear and a few light handling marks. The M1910 scabbard rates very good and is equipped with a wire double belt hook and a faded woven cover with light stains and a lightly scuffed but intact brown leather tip. (57241-144AD) [Larry Kaufman Collection]
2446. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1916" on the reverse blade and "U.S. / 636329" on the obverse blade. The metal surfaces retain about 98% original blue with some very light wear along the tip and edges, the hilt is a slightly duller matte blue. The rough finish walnut grips rate excellent with a few light handling marks. The M1910 scabbard rates very good and is equipped with a wire double belt hook and a faded replacement "Boyt/41" woven cover with a scuffed but intact brown leather tip. The cover shows light staining and is stenciled "G.N. TAYLOR" in large letters on the back of the cover. (57241-144AE) [Larry Kaufman]
2447. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1920" on the reverse side and "U.S. / 1163285" on the obverse side. The blade retains about 98% original blue with some very light scabbard marks along the top edge and sides of the blade. The hilt and part of the ricasso retain about 95-97% original gray parkerized finish with light impact marks and edge wear along the guard. The rough finish walnut grips rate excellent with a couple light blemishes. The M1910 scabbard rates very good and is equipped with a wire double belt hook and a faded woven cover and a newer lightly crazed and scuffed light brown leather tip. The belt hook tab has a light covering of white paint. (57241-144AF) [Larry Kaufman Collection]

The blade remains bright overall with numerous light scuffs and scratches from being sharpened and scabbard removal along with scattered light oxidation staining. The hilt has toned to brown with very light impact marks and edge wear. The walnut grips show modest wear with light handling marks. The M1910 scabbard rates very good and is equipped with a wire double belt and a woven cover with previous owners name written in ink on the back of the cover and a scuffed but intact brown leather tip. (57241-144AH) [Larry Kaufman Collection]
2450. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 3/8" overall with a 15 7/8" stopped fuller blade marked "S A / [ordnance bomb] / 1916" on the reverse side and "U.S. / 639445" on the obverse side. The blade remains bright with scattered fine oxidation staining, a slightly bent tip, a few very light chips in the main edge and light scuffs and scratches from being sharpened. The hilt bears an overall mottled brown patina with light silvering along the edges. The M1910 scabbard rates very good and is equipped with a wire double belt hook and a faded woven cover with an intact leather tip having a hardened discolored point with light oxidation forming. (57241-144AI) [Larry Kaufman Collection]
2451. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/8" overall with a 15 5/8" stopped fuller blade marked "S A / [ordnance bomb] / 1906" on the obverse side and "U.S. / 29515" on the obverse side. The blade has mellowed to a bright pewter with scattered pinprick pitting and oxidation staining, the tip is slightly shortened and rounded. The hilt and part of the ricasso bears a mottled gray patina with scattered light impact marks. The rough finished walnut grips rate about very good showing light wear and handling marks. The M1905 scabbard rates about very good with a small crack at the tip and is equipped with a leather cover and steel throat and belt loop. The metal has toned to a dull brown with fine oxidation staining and the leather shows modest scuffs and separating at the tip; the markings and the back of the cover have faded with only partial inspectors initials visible. (57241-144AJ) [Larry Kaufman Collection]
2452. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 3/8" overall with a 15 7/8" stopped fuller blade marked "S A / [ordnance bomb] / 1906" on the reverse side and "U.S. / 35074" on the obverse side. The blade remains overall bright with light chips and scuffs from being sharpened along with scattered fine oxidation staining and some light impact marks along the spine. The hilt and part of the ricasso retain about 70% original blue toning to brown with scattered fine oxidation staining. The rough finish walnut grips rate good to very good having been worn nearly smooth with a couple dents in the obverse scale and other light handling marks. The M1905 scabbard rates about very good and is equipped with a leather cover and steel throat and belt loop. The cover rates fair with moderate flaking and scuffing and seam separating the first 7" from the tip. The metal retains about 70% original blue toning to brown with fine oxidation staining, the majority of blue on the belt loop. The back of the cover is marked "R.I.A. / 190_ / J.E.N.". (57241-144AK) [Larry Kaufman Collection]

2453. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] 1906" on the reverse side and "U.S. / 67759" on the obverse side. The blade remains bright with a couple minute dents and scuffing from being sharpened along with other scattered scuffs, pinprick pits and oxidation staining more pronounced on the reverse side. The hilt has toned to dark brown with light edge wear and some fine oxidation staining primarily on the tangs. The rough finish walnut grips have been worn mostly smooth with traces of original milling on the obverse scale and light handling marks. The M1905 scabbard rates good overall and is equipped with a leather cover and steel throat and belt loop. The metal has toned to brown and gray with a thin covering of fine oxidation and the rivet attaching the belt loop to the frog is moderately worn leaving the arm substantially loose. The leather shows numerous light scuffs and handling marks, is separated at the tip and is marked with a lightly fading "R.I.A. / 1907 / J.E.N." on the back of the cover. (57241-144AL) [Larry Kaufman Collection]
2454. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Rock Island Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "R.I.A. / [ordnance bomb] / 1907" on the reverse side and "U.S. / 116277" on the obverse side. The blade remains bright with a few sparse minor light scuffs and specks of fine oxidation staining. The hilt and part of the ricasso retain about 80% original blue toning to dull brown with light wear along the edges. The rough finished walnut grips rate excellent. The M1905 scabbard rates very good plus and is equipped with a leather cover and steel throat and belt loop. The belt loop retains about 90% original blue with scattered patches of oxidation while the throat has a mottled brown patina with some very fine oxidation staining; the stop is worn on the throat allowing the arm to completely rotate. The leather shows a 1" scuff along the top edge and ample other scuffs and handling marks. The seam remains intact and the rear of the cover is marked "R.I.A. / 1908 / H.E.K.". (57241-144AM) [Larry Kaufman Collection]
2455. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 3/8" overall with a 15 7/8" stopped fuller blade marked "S A / [ordnance bomb] / 1908" on the reverse side and "U.S. / 293616" on the obverse side. The blade remains overall bright with scattered oxidation along the edge and fullers and light, modest scuffing along the tip from the point being lightly ground and rounded. The hilt and part of the ricasso retain about 85% original blue toning to brown and gray with light silvering along the edges. The walnut grips rate about very good, the rough milled surfaces worn nearly smooth along with a few light handling marks. The M1905 scabbard rates good to very good and is equipped with a leather cover and steel throat and belt loop. The metal retains about 85% original blue with scattered oxidation more moderate in areas. The leather shows scuffed edges and handling marks, a separating tip and the rear of the cover is marked with a fading "R.I.A. / 1907 / T.C.". (57241-144AN) [Larry Kaufman Collection]
2456. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1906" on the reverse side and "U.S. / 137129" on the obverse side. The blade is toning to bright gun metal with scattered fine oxidation staining, pinprick pitting and moderate scuffing from being sharpened. The hilt has toned to a dull brown patina with fine oxidation staining, the guard is an even balance of brown dull gray. The walnut grips rate very good showing moderate wear and handling marks. The M1905 scabbard rates very good and is equipped with a leather cover and steel throat and belt loop. The throat bears an overall dull brown patina with fine oxidation staining while the belt loop retains about 85% thinning original blue with more modest oxidation. The leather shows ample handling marks with a few light scuffs and cuts. The seam remains intact and the rear of the cover is marked "R.I.A. / 1909 / T.G.C.". (57241-144AP) [Larry Kaufman Collection]
2457. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The scabbard measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1906" on the reverse side and "U.S. / 36964" on the obverse side". The bright finished blade is mellowing slightly with modest scuffs and scratches from being sharpened and scabbard removal along with a few specks of light oxidation staining. The hilt and part of the ricasso retain about 90% original blue toning to brown and gray. The rough finished walnut grips rate very good plus showing minimal wear and a few light handling marks. The M1905 scabbard rates very good and is equipped with a leather cover and steel throat and belt loop. The metal retains about 85% original blue toning to brown with fine oxidation being more moderate in areas along with an 1/2" impact mark in the rear of the belt loop. The leather shows numerous scuffs and rub marks, the tip starting to separate and the rear of the cover marked "R.I.A. / 1906 / E.H.S.". (57241-144AQ) [Larry Kaufman Collection]
2458. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. The bayonet measures 20 1/2" overall with a 16" stopped fuller blade marked "S A / [ordnance bomb] / 1906" on the reverse side and "U.S. / 300706" on the obverse side". The bright finish of the blade is starting to mellow with modest scuffs from being sharpened and scattered fine oxidation staining. The hilt and part of the ricasso retain about 80% original blue with fine oxidation staining, the guard is a duller pewter. The walnut grips rate about very good showing modest wear and a few light handling marks. The M1905 scabbard rates about very good and is equipped with a leather cover and steel throat and belt loop. The metal is toning to brown with generous amounts of original blue and fine oxidation. The leather shows ample fading and handling marks with modest crazing and scuffing at the tip, the rear of the cover is marked with a fading "R.I.A. / 1902 T.C.D.". (57241-144AR) [Larry Kaufman Collection]
2459. **U.S. MODEL 1905 BAYONET** This is a U.S. Model 1905 bayonet by Springfield Armory with scabbard. the bayonet measures 20 3/8" overall with a 15 7/8" stopped fuller blade marked "S A [ordnance bomb] / 1906" on the reverse side and "U.S. / 130706" on the obverse side. The blade has toned to bright gun metal with scattered fine pinprick pitting and oxidation staining with a few patches of more modest staining along the tip. The hilt and part of the ricasso retain about 75% original blue with scattered fine oxidation staining, the guard is overall brown with light edge wear. The walnut grips rate about very good the milled finish worn nearly smooth with dents and handling marks. The M1905 rates good to very good and is equipped with a leather cover and steel throat and belt loop. The metal is toning to brown with scattered oxidation. The leather shows a few shallow dents about 4" from the throat with ample scuffs and crazing. The seam is just starting to separate along the tip and the rear is marked "R.I.A. / 1906 / H.E.K.". (57241-144AS) [Larry Kaufman Collection]
2460. **U.S. SCABBARD LOT** Two total; this lot contains one "USN /MK1" and one ordnance bomb marked M3 scabbard with green bodies and gray steel throats. The scabbards measure 17" overall and are in very good plus condition overall with light scuffs and stains along the bodies and the throats toning to brown. (57241-140AL) [Larry Kaufman Collection]
2461. **U.S. SCABBARD LOT** Two total; this lot contains two M1917 scabbards with green bodies and gray steel throats marked with ordnance bombs over "M-1917". The scabbards measure 17" overall and are in near excellent condition with a few light marks and blemishes on the bodies and the metal just starting to tone to brown. (57241-140AM) [Larry Kaufman Collection]
2462. **U.S. SCABBARD LOT** Three total: (1) Beckwith M3 scabbard measuring 17" overall and equipped with a green body and ordnance bomb marked gray steel throat in near excellent condition having a few light stains and rub marks; (1) Detroit Gasket Manufacturing Co. M3 scabbard measuring 17" overall equipped with a green body and an ordnance bomb over horizontal "S" (lazy s) in very good overall condition with lightly flaking green paint and fading gray throat having some light oxidation staining, more moderate on the wire hook retention clip; (1) M1 scabbard measuring 11 1/4" overall with a green body and matching green painted ordnance bomb marked throat in very good plus to near excellent condition having a few light stains on the body and sparse spots of light flaking on the throat. (57241-140AN) [Larry Kaufman Collection]
2463. **KRAG SCABBARD LOT** This lot contains steel scabbard for an U.S. Model 1892-1898 Krag rifle. This is the early style with simple open spring steel belt hook. The scabbard measures 12 5/8" from the throat to the ball shaped finial point. The metal bears a dull brown patina with fine oxidation staining. The belt hook has loosened slightly but bayonet is in otherwise very good plus condition. (57241-140AP) [Larry Kaufman Collection]

2464. **JOHNSON RIFLE SCABBARD LOT** This lot consists of an original scabbard for a 1941 Johnson bayonet. The scabbard is dark russet brown in color and measures 13 1/2" overall with a 6 3/4" rectangular belt loop that ends with a wide square cut where the tapered tube shank is attached. The retention strap is attached by two small rivets, the right rivet is pulling through and the leather coverings are crazed and flaking but remain mostly intact. The leather shows a few light handling marks but remains supple and the seams remain intact to the closed conical shaped tip. (57241-140AQ) [Larry Kaufman Collection]

2465. **THEATER CUSTOMIZED U.S. M3 TRENCH KNIFE BY CASE**

This knife measures 11" overall with a 6 3/4" blade equipped with a 3 1/4" sharpened false edge. This is an early variation only marked "U.S. M3 CASE 1943" on the reverse side of the blade. The blade and guard retain about 75% thinning original blue with fine oxidation primarily in the blade markings and at the guard, the majority of loss fading to in-the-white and scuffing along the false edge from being sharpened. The handle is a rather nice looking theater customized creation composed of shaped stacked clear acrylic sections separated by wide and narrow leather spacers. The handle remains clear overall with a few light scuffs highlighting neat blue patches of dried adhesive. Knife includes a "MILSCO / 1943 / [ordnance bomb]" marked U.S. M6 leather sheath equipped with a handle strap and oblong iron pin reinforced seams and no provision for wire belt hook. The leather shows light scuffs and stains with a wrinkled suspension billet; the iron hardware and tip plates have a nice russet patina and the stitching remains tight and intact. A nice war-time custom M3 Trench knife. (57241-149A) [Larry Kaufman Collection]

2466. **U.S. M3 TRENCH KNIFE BY CAMILLUS** This knife measures 11 1/2" overall with a 6 3/4" blade equipped with a 3 1/4" sharpened false edge. This is an early variation only marked "U.S. M3 Camillus" on the reverse side of the blade; the butt of the pommel is marked with an ordnance bomb. The metal surfaces retain 95-97% original blue, the loss primarily due to patches of wear on the obverse side of the blade and on the pommel with scattered spots of light oxidation. The stacked leather washer handle rates excellent. Knife includes a "MILSCO / 1943 / [ordnance bomb]" marked U.S. M6 leather sheath equipped with a handle strap and oblong iron pin reinforced seams, the top seam on suspension billet doesn't appear to be wire belt hook compatible. The leather shows modest wear, crazing and staining; the iron hardware and tip plates are toning to brown with patches of scattered oxidation staining. (57241-149B) [Larry Kaufman Collection]

2467. **SARCO ARMS EXPERIMENTAL KNIFE BAYONET** This is a Sarco Arms Experimental P.I. (Product Improved) manufactured in the 1990's utilizing Conetta M2 knife blades and surplus M7 bayonet parts to closely resemble the original test bayonets manufactured in 1977 to replace the M7. The bayonet measures 11 3/4" overall with a 6 3/4" bowie style blade. The blade is marked "U.S. / Conetta" and retains about 98% added gray phosphate finish over the roughed metal surfaces. The unmarked guard and pommel retain about 98% original parkerized finish with some sparse fine oxidation, the butt is not welded to the tang. The stacked leather washer handle rates excellent. Bayonet includes a modern Camillus M6 style leather scabbard and what appears to be an original M6 brown leather scabbard marked "U.S. M6 / VINER BROS / 1943". The leather shows light scuffs and stains and the handle strap has been lowered and reriveted. (57241-149C) [Larry Kaufman Collection]

2468. **U.S. MARK I TRENCH KNIFE BY L.F. & C.**

Manufactured by Landers Frary & Clark, this knife measures 11 1/2" overall with a 6 5/8" double edge blade. The blade has a slightly rounded tip and the metal bears a mottled gray and brown patina with light traces of original blackened finish towards the ricasso and scattered patches of light oxidation staining. The brass knuckle guard handle bears a dark ochre patina with generous traces of original blackened finish and is marked "U.S. 1918 / L.F.&C.-1918". The obverse side of the handle is marked "J.T. Davis" and intimal research shows a draft card information for a John Thomas Davis born 9 February, 1884 married to Lula Tanner 13 November, 1904 and residing near Cullman County Alabama. The iron pommel nut has an overall brown finish with light silvering along the edges and a few light impact marks. Knife includes a non-original brown leather sheath equipped with an L-shaped suspension billet with wire double belt hook and brass rivet reinforced seams and handle strap. The leather has a few light scuffs and stains, the seams remain tight and verdigris is lightly forming on the hardware. A neat looking Mark I Trench knife whose further research could prove interesting. (57241-149D) [Larry Kaufman Collection]

2469. **U.S. MODEL 1917 TRENCH KNIFE BY L.F. & C.**

This knife measures 14" overall with a 9" triangular blade that retains about 95% original blue with the loss due to light scabbard marks on the facets. The hilt has pyramidal studs on the "D" guard and retains about 75% original blue toning to brown with light silvering along the edges. The walnut grip has a couple very light blemishes and retains nearly all its original oil finish. The "JEWELL-1918" marked scabbard is in fine condition with only a few nicks and marks in the original olive green finish and some minor oxidation staining on the steel chape and throat. A very good plus to near excellent condition Landers, Frary & Clark trench knife. (57241-149E) [Larry Kaufman Collection] (500/700)

2470. **U.S. MODEL 1880 ENTRENCHING TOOL** This tool measures 13 1/4" overall with an 8" trowel shaped steel blade. The blade and iron guard have toned to pewter with light scratches and scattered patches of freckling and oxidation staining. The grooved oak handle rates very good plus with a couple hairline cracks; "U.S." marking remains crisp. The leather scabbard with brass collar and iron ring rate very good plus with the leather having intact tight seams, light scuffs and stains, the "U.S." stamping remaining crisp and clean. The brass has a pleasing goldenrod patina and the iron ring has toned to pewter. A nice looking Indian Wars era entrenching tool. (57241-149F) [Larry Kaufman Collection] (200/400)

2471. **UNMARKED U.S. MODEL 1880 HUNTING KNIFE** This iron guard hunting/entrenching knife measures 13 1/2" overall with an 8 1/2" single edged blade. The bright finished metal surfaces are toning to gun metal with scattered fine oxidation staining and no evidence of serial number or maker's marking on the guard. The grooved maple handle rates excellent. Knife includes a Watervliet Arsenal marked black leather scabbard with brass belt hook and throat plate. The leather shows some light scuffs, ingrained dirt and modest crazing on the suspension strap; the seams and stitching remain tight and intact. The brass has mellowed to a soft ochre patina with spots of light oxidation. (57241-149G) [Larry Kaufman Collection]

2472. **U.S. MODEL 1887 HOSPITAL CORPS KNIFE** This type 2 knife measures 16 3/4" overall with a 12" steel blade with etched panel 3 1/4" from the guard. The blade is in very good plus condition remaining mainly bright with some scattered light scratches, scuffs from being lightly sharpened and sparse spots of light oxidation. The etched panel remains fully visible and reads "HOSPITAL CORPS / U.S. ARMY". The brass guard, ferrule and pommel cap retain about 98% original bright nickel with some light scuffs and specks of tarnish and the turned maple handle rates near excellent with a few light spots of wear and stains. The first type black leather scabbard with leather belt loop and brass throat plate rates very good plus with light scuffs and ingrained dirt, there are a couple of more moderate spots on the rear of the sheath and the front and rear of the belt loop are Watervliet Arsenal marked. The brass throat has toned to a mellow goldenrod with light verdigris forming on the rear hardware. A very nice somewhat rare Hospital Corps knife. (57241-149H) [Larry Kaufman Collection] (500/700)

2473. **U.S. MODEL 1887 HOSPITAL CORPS KNIFE SCABBARD** This type 2 scabbard measures 18 3/4" overall and is equipped with a brass belt hook and throat plate. The scabbard is in very good plus to excellent condition having intact and tight stitched seams with some scattered minor light scuffs. The back of the scabbard is marked with crisp "ROCK ISLAND / ARSENAL / W.T.G." and a lightly faded inverted "H.F.K." at the tip. The brass belt hook, throat plate and hardware have acquired a lightly tarnished goldenrod patina and the back of the hook is marked vertically "R.I.A.". (57241-149I) [Larry Kaufman Collection]

2474. **U.S. MODEL 1877 HOSPITAL CORPS KNIFE SCABBARD** This type 2 scabbard measures 18 1/2" overall and is equipped with a brass belt hook and throat plate. The scabbard is in good to very good condition with moderate crazing and flaking, the seams still tight and intact. The front of the scabbard is numbered "52" while the back of the scabbard is marked with a fading but still visible "ROCK ISLAND / ARSENAL / W.T.G." and "B.W." about 1 1/2" below. The brass belt hook, plate and hardware have acquired a tarnished ochre patina with light verdigris forming along the edges. The belt hook shows some light bends and is marked "R.I.A." vertically along the back of the hook and is stamped with a broken slanted "14" on the bottom rear of the hook between the three pins. (57241-149J) [Larry Kaufman Collection]

2475. **SHEFFIELD STAG HANDLE BOWIE KNIFE BY GILBERT SAVILLE WORKS** 7 7/8" full tang clip point blade, 12 3/8" overall length. The blade is starting to dull with an abundance of light brush marks from being cleaned with remnants of fine pinprick pitting and oxidation staining primarily at the tip and ricassos. The obverse side of the blade is marked "GILBERT SAVILLE WORKS Ld. / SHEFFIELD ENGLAND" along the top edge. The oval German silver guard has been cleaned as well with light marks, remnants of pinprick pitting and is acquiring a tarnished bright patina with traces of light verdigris. The jugged bone scales rate very good, fastened by four small bright pins and have pulled away slightly at the butt. Included is a brown leather sheath with a one-piece double slot belt loop. The leather remains intact with light stains on the front of the belt loop. The back of the sheath has "Sep. 29-1895 / St. Paul / Minn." written in cursive along the body and "Sep 27-1895" along the top edge of the belt loop. An overall very good Sheffield Gilbert Saville Works bowie. (57241-149M) [Larry Kaufman Collection] (200/400)

2476. **SCARCE REMINGTON ROLLING BLOCK BAYONET**

This long variation bayonet measures 20 1/2" overall with a 16" stopped fullered blade and a 15 mm muzzle ring. The blade is an overall smoky gray patina with scattered fine oxidation staining. The markings in the center of the reverse fuller remain crisp and read "REMINGTON ARMS - UNION METALLIC CTG., REM. WORKS, ILLION N.Y. U.S.A.". The hilt has an overall darker brown patina with patches of gray, the single quillion hook guard is unnumbered. The walnut grips rate very good plus with light handling marks. Included is a steel scabbard equipped with a ball tip finial and a black leather frog. The scabbard rates near excellent, the metal retaining nearly all its black lacquer with a couple spots of light wear and scattered fine oxidation staining. The leather shows moderate flaking and scuffing but remains flexible and intact. A nice seldomly encountered long Remington Rolling Block bayonet with scabbard. (57128-2)

2477. **U.S. MODEL 1855-70 RIFLE-MUSKET BAYONET**

This socket bayonet measures 21" overall with an 18" blade, the socket measures 3" with a .781" diameter bore. The bright metal finish has toned to a pale gray-brown patina with patches of light oxidation staining and the face is marked "U.S. / S" between the flute and shank. Included is a second variation black leather scabbard with with leather frog and brass finial tip chape. The leather shows moderate flaking and scuffing and the seam starting to separate. The brass has a few light dents and a light tarnished patina. The frog shows light fading and scuffing with light verdigris forming on the copper rivets. An overall very 1855-70 socket bayonet. (57451-3)

2478. **SHEFFIELD CUTLERY KNIFE BY WILSON**

7" tapered full tang kitchen blade with false edge, 11 1/8" overall length. The blade has toned to a gray patina with scattered fine oxidation staining and patches of minor pinprick pitting. The obverse side of the blade is marked "I.WILSON / SYCAMORE St. / SHEFFIELD, ENGLAND" above the peppercorn and diamond makers marks. The dark horn scales show light handling wear and light chips along the interior edges. The scales are fastened by the small brass pins and the obverse scale has been decorated with a steer head and running dog brass inlay. (57241-149N) [Larry Kaufman Collection] (175/275)

2479. **ANTIQUE BONE HANDLE DOUBLE EDGE DAGGER**

6 7/8" double edge, 10 5/8" overall length. The bright finished blade is starting to mellow with scattered specks of fine oxidation, minor light scratches and chips along the edges associated with age. The iron guard is toning to gun metal with areas of gray along the edges and moderate oxidation staining is present. The polished bone handle has a light cream color with a 2 1/2" thin crack in alternating edges at the guard causing light flex in the handle. One side of the handle reads "J.M. / Albany / 1852" inside of a modern scrimshawed foliate wreath. Included with the dagger is a black leather scabbard with an iron tip chape. The leather shows light crazing and flaking, the seam remains intact. The tip chape bears a mottled brown patina with light oxidation, the iron throat collar is no longer present. A nice looking newly decorated antique "Arkansas Toothpick" dagger. (57241-149P) [Larry Kaufman Collection] (300/500)

2480. **UNMARKED GERMAN STAG HANDLE HUNTING KNIFE**

6 1/2" stainless steel spear tip blade equipped with a 2 1/4" unsharpened false edge and narrow unstopped fullers. The blade shows moderate scratches and scuffs from being sharpened along with scattered patches of freckling, oxidation and a few spots of pitting. The red felt washer shows wear but remains intact. The stainless steel rectangular guard with "S" shaped quillion and the tapered grooved collar remain overall bright with a few spots of light freckling, the guard has loosened slightly. The stag handle has darkened nicely with age and is fitted with a circular German silver buttcap having a couple small dents along the edges. Knife includes a black leather scabbard with a German silver throat with belt clip and a tip chape with ball shaped finial. The leather shows modest flaking and crazing and the seam starting to separate at the tip. The metal ends are a dull pewter with light tarnish and oxidation around the iron pins. Still a good looking used hunting knife that has served its owners well. (57241-149Q) [Larry Kaufman Collection] (100/200)

2481. **CUSTOM J. RIDDLES SKINNING KNIFE**

This handcrafted fixed blade knife measures 7 3/8" overall with a 3 1/4" tapered full and mirror polished, high carbon steel, tapered, full tang drop point blade marked "J. Riddles OK. City, OK". The bolster is nickel silver and the scales are an attractive almost burl-like desert ironwood fastened by two decorative pins; the first half of the upper tang shows light dog bone filework. Included is a shallow welt pouch open throat leather sheath. A handy hunting knife with a great size and feel. (55847-5) (150/250)

2482. **UNMARKED BASKET HILT RAPIER**

34 1/4" unmarked double edge blade, 40 5/8" overall length. The blade is toning to pewter with overall freckling and fine oxidation, the rear third of the blade is equipped with a narrow unstopped fuller. The hilt is composed of a two flat ring guard with alternating flat quillons and single round side rings. The hilt is one-piece constructed, the front and side rings are not attached to the ricasso on the reverse side of the blade; the metal is engraved with geometric and floral shapes and bears a gray brown patina with patches of oxidation heaviest along the interior of the rings. The handle is wrapped in tight braided wire having a dull brown patina and is centered between two gold gilt woven bands. The fluted iron Turks head pommel with chiseled leaves has an overall brown oxidized patina with patches of gray along the edges. A nice looking European basket hilt sword. (57350-1A)

2483

2483. **SPANISH COPY OF A SCOTTISH CLAYMORE SWORD** This hand-and-a-half sword measures 52 3/8" overall with a 38 1/8" double edge blade equipped with a 7" rectangular ricasso. The unmarked blade is primarily a silver pewter patina with overall oxidation staining and patches of more modest oxidation and pinprick pitting in areas. The guard is composed of slightly sloping quillons ending with semi-globate finials measuring 9 1/2" tip to tip. The handle is covered with tightly wrapped red wicker flaking in areas with spots of natural tan finish. The flared paneled semi-bulbous pommel has an overall dull brown patina with areas of light gray along the edges. A neat copy of a Scottish Claymore having a nice antique looking appearance. (57350-1)

2484

2484. **U.S. MODEL 1818 CONTRACT CAVALRY SABER BY STARR** 31 1/2" curved unstopped fuller clip point blade, 37" overall length. The blade is an overall silver pewter patina with scattered oxidation staining and a few tiny nicks along the edge. Ordered for issue to state militias and inspected by Luther Sage, the reverse ricasso is marked "U.S. / P / LS / N.S STARR". The iron hilt has a pleasing dull brown patina with patches of gray. The guard has a disc shaped quillon and the guard and knuckle are pierced for knot attachment, the bow is dated 1821. The black leather wrapped handle shows modest crazing and flaking with exposed wood at the pommel. The wire wrapping is no longer present and the iron collar is loose. Included is an iron scabbard with two suspension rings and a braided thin band drag. The scabbard is an overall brown patina with generous traces of original black lacquer at the throat and scattered oxidation staining, a modest dent at the tip along with other light dents and a braided brass seam along the inside curve. A nice Federal period Nathan Starr Cavalry saber. (57120-9) (500/700)

2485. **INDIAN TALWAR SWORD** This is an iron talwar, made for the tourist trade. The blade is almost 32" long, gently curving. It has an overall dull gray and oxidized patina and is of a somewhat rudimentarily hammered iron, only partially finished. The hilt with the disc pommel has an overall soft oxidized patina with some active rust, the disc pommel slightly misshapen. A purple velvet covered wooden scabbard is included. (1X33856-6A4)

2486

2486. **FRENCH MODEL 1829 ARTILLERY SABER** This saber measures 37 3/8" overall with a 31 7/8" curved single edge blade having wide single fullers. The blade remains bright overall with scattered scuffs and brush marks at the tip and hilt from being cleaned while still showing remnants of light pinprick pitting. The spine is properly marked and dated "1838". The leather washer shows modest wear but remains intact and the brass hilt has a lightly tarnished goldenrod patina, the pommel a slightly darker ocher patina; the obverse crossguard is numbered "266" and "371" (crossed out) and the reverse crossguard is marked "331". The leather covered grip shows some light scuffing but remains mostly intact with slightly loose braided wire wrapping. The steel scabbard has a dark gray brown patina with scattered mild oxidation, overstruck date and crossed out rack numbers. An overall very good example French sword and was the inspiration for the U.S. Model 1840 Artillery Saber. (1X56935-15C) (400/600)

2487. **U.S. NAVY OFFICERS SWORD BY BERMEJO** 32" three-quarter length unstopped fuller blade, 37 1/8" overall length. The blade remains bright with etched panoplies of foliate scroll, anchors, are "U.S.N." in riband and flag. The reverse side of the blade is engraved "THOMAS A. VARRELL" in a serrated bordered name plate in front of the Star of David etched ricasso while the obverse ricasso is "Fabrica / Bermejo / Toledo / Spain". The brass hilt rates excellent with a pierced guard having a cast "U.S.N." in a spray of oak leaves and acorns, serpent knucklebow and quillon and Phrygian pommel. The brass retains 98% original gold wash and the faux ray skin wrap remains complete with intact brass wire wrap. The leather covered scabbard rates excellent with bright polished brass hangers and drag. A nice, excellent Spanish made U.S. Naval Officer's sword. (1X57292-76) [Tom Varrell Collection] (100/200)

2488. **REPRODUCTION MODEL 1850 FOOT OFFICER'S SWORD** 29 1/2" stainless steel blade equipped with a 10 5/8" false edge, 35" overall length. The blade remains bright and is etched "China" on the obverse ricasso and "Stainless / Steel" on the reverse ricasso. The pierced brass hilt and Phrygian pommel have a bright, polished finish and the leather wrapped grip remains intact as does the braided wire wrap. The leather wrapped steel scabbard rates excellent and is accented with a polished brass drag and throat with frog stud. (2X56417-11) (25/75)

2489

2489. **PATRIARCHS MILITANT FRATERNAL SWORD** Independent Order of Odd Fellows (IOOF) 28 1/8" blade, 34" overall. The blade remains bright overall with some scattered light scuffs, scratches and specks of fine oxidation pitting. The blade is etched "The/Henderson/Ames Co./Kalamazoo/Mich." on the reverse blade at the hilt along with decorative flowing tendrils, crossed shepherds crook & sword and shields. The obverse side of the blade has matching etched tendrils, animals and "Thurston G. Kenyon" in center shaded riband. The brass crossguard and globe-shaped pommel with button cap has a nice mellowed goldenrod patina. The crossguard features reversed quillons and a center shield showing a crown with crossed shepherds, crook and sword. The leather wrapped handle remains intact with some minor light flaking and the brass wire wrap remains intact and tight. The tubular steel scabbard remains bright overall with scattered light pinprick pitting, oxidation staining and is decorated with stamped brass mounts. A nice overall very good condition fraternal sword. (3X5344-6) (100/200)

2490. **INDIA PATTERN REPRODUCTION CIVIL WAR CAVALRY SABER** 33" unfullered blade, 39 1/4" overall length. The plain blade remains bright with some minor light scuffs and scabbard marks and is simply marked with an inverted "INDIA" on the obverse ricasso. The brass branched guard and Phrygian style pommel is a lightly tarnished goldenrod and the hardwood handle with brass wire wrapping remain intact, the leather washer is no longer present. The included steel scabbard retains 98-99% original nickel with some minor light scuffs and is equipped with a drag and dual hangers. (1X57292-82) [Tom Varrell Collection] (50/100)

2491. **INDONESIAN ARMY DRESS SWORD** 27 3/8" single edge blade, 32 3/8" overall length. The blade retains nearly all its bright chrome finish with light scuffs from scabbard storage; the reverse side of the blade is etched with simple foliate scroll beneath "EKA PAKSI CAKTI". The eagle pommel and guard and P-shaped knucklebow retain all its bright chrome finish. The black plastic grip rates excellent and is decorated with a bright metal band wrap and a royal blue portepee is attached to a hanging ring at the rear of the pommel. The brass scabbard retains most of its bright chrome finish with a number of light dents, scuffs and minor fading at the tip. The scabbard is decorated with a talon-shaped drag and a slightly loose eagle escutcheon between the single hanger and throat. (2X56242-14) (50/100)

2492. **JOSEPH ALLEN & SONS NON-XLL BOWIE KNIFE** This Bowie measures 8 3/4" overall with a 4 7/8" clip style Bowie blade. The blade remains mostly bright with some spots of pinprick pitting and fine oxidation staining, some light scratches and very fine markings from being professionally sharpened. The reverse side of the blade is unmarked while the obverse side of the blade is marked with a lightly fading "NON-XLL" trademark along the top edge and "JOSEPH / ALLEN & SONS / SHEFFIELD / ENGLAND" on the ricasso. The oval German silver guard has a light tarnished patina and the full-length tang has a thin covering of light oxidation staining. The genuine stag handles have darkened nicely with age and are fastened by three small iron pins. Knife includes an open throat belt sheath having light scuffs and stains, there is a small tear at the middle loop band and light verdigris forming on the two large rivets. An overall very good plus condition Non-XLL Bowie overall. (56935-23) (500/700)

2492

2493. **LOT OF KNIVES** This lot consists of three fixed blade knives beginning with a Kabar, a very light and handy example with an overall length of 8" including a 4" blade with moderate scratches and adhesive residue at its dull edge. The stacked leather washer handle is lightly worn. The second knife in this lot is another lightweight example with a stacked leather washer handle and with more wear. This Case XX measures 7 3/4" overall with a 4" blade. The last one is an unmarked hunting knife with a sharpened 5" curved blade exhibiting scattered smoky gray spots. The overall length is 9" with a lightly worn wood handle and brass hardware. Included is a Globemaster No. 60620 leather sheath experiencing significant separation of the stitching. (75694-18A)

2494. **LOT OF KNIVES** This is a lot of three fixed blade knives with stacked leather washer handles. The first two are by Western and with brass guards, aluminum pommels and mildly worn handles beginning with one marked "L46-5", which measures 9" overall with a 4 1/2" blade with a large area of significant oxidation and pitting due likely to contact with some liquid. The second is lightweight, measuring just under 8" with a curved 4" blade with thumb serrations. The third knife also features a blade with thumb serrations, this one is by Case and the 4 1/2" blade has a mottled smoky gray patina and the onset of light pitting. With an overall length of 8", it features aluminum hardware and only light wear to the leather that exhibits a few light impact marks. Included is a Clauberg (German manufactured) metal reinforced leather sheath with a previous owner's name and ID information written in ink. (75694-18B, 19G)

2495. **LOT OF KNIVES** This lot consists of three fixed blade knives with stacked leather washer handles and aluminum pommels and leather sheaths. The first one is unmarked with an overall length of 11 1/4" and a 6 1/2" sharpened blade with a couple of minor chips at the edge. The mildly worn leather shows a few light dings. The scabbard has a named carved in large letters. Next is a Western, measuring 10" with a 5 1/2" sharpened blade exhibiting wear marks and some small isolated areas of light pitting. The dark leather handle shows several light impact marks and the sheath has scuffs and stitching that has separated. The last one is a Kabar marked "1232", a lightweight and smaller example measuring 8" with a bright 4" blade exhibiting a few wear marks. The brown leather handle features three finger grooves and has several scuffs and impact marks. The scabbard is fully intact and rates about very good. (75694-18C, 19F)

2496. **LOT OF KNIVES** This is a lot of six pocket size folding knives including the first four with brown plastic handles, the first two of which are by Barlow with smooth handles exhibiting light handling marks. The first of these is a daddy that measures 4 3/4" in its folded state and with a 3" well worn blade. The other is a standard, 3 1/4" folded with both of its mildly oxidized blades showing chipped points. The other is an Imperial Kamp King with a 2 1/2" smoky gray blade with light surface oxidation, can opener and screwdriver and complete with key ring. Also with its key ring is a Case with a very good plastic handle, and measuring 3 1/2" and featuring four tools with mild surface oxidation over their smoky gray surfaces. Next is a Case with a very good jugged bone handle and two bright 3 1/2" blades with light wear. The last knife is a Japanese manufactured example with wood panels marked "Wild Cat" with a bright 4" blade and rating near excellent. (75694-18D, 19H)
2497. **LOT OF KNIVES** This is a lot of six folding knives beginning with a 4 1/2" German manufactured Kauffmann with a very good one piece black lacquered steel handle that is marked "K55K" and "Mercator". The blade has scattered mild brown surface oxidation. Next are two standards by Barlow, each with brown plastic handles and two blades. One has surfaces with light overall oxidation, the other is bright with a few scattered spots of oxidation. The next one is marked "Colonial" on its 4" blade showing moderate wear and oxidation and also features an additional serrated blade with opener and in similar condition. The jugged bone handle rates very good. The next one also features jugged bone panels, an Imperial with two blades rating good to very good and an overall length of 3 1/4". The last one is a Camillus with brown plastic handle panels and a smoky gray curved blade marked "1". (75694-18E)
2498. **LOT OF KNIVES** This lot consists of six folding knives including four with wood handles, two of which are Japanese manufactured, marked "Panther" and "557" and feature brass frames and measure 4 3/4" in their folded state. The third one is of identical length and has a very good blade marked "Panther" and "O.M.O.R.". The panels have end sections that retain most of an applied blue paint. The next one in this lot is slightly longer with a larger frame and a bright blade marked "LB 440" and "Maxam Steel" and housed in a very good to excellent condition unmarked leather sheath. The next one is a Colonial with a jugged bone stag handle and three blades with scattered large spots of surface oxidation. The last one is of entirely metal construction, measuring 4 1/2" with left panel marked "G. Schrade's" and "Hunting & Fishing Knife". The single blade has light wear. (75694-18F)
2499. **LOT OF KNIVES** This lot consists of four brass framed folding knives, each measuring about 5" in their folded state including two with sharpened blades marked "Lawman" and of Japanese manufacture. One is missing the wood handle panels. The next one is also of Japanese manufacture with wood panels and the heavily sharpened blade is marked "Deerslayer". The last one features a plastic handle with an oval "Old Timer" logo and a dark gray blade marked "Schrade/USA 7-DT". The overall condition of the knives in this lot is about very good. (75694-18G)
2500. **KNIFE LOT** This is a Puma White Hunter numbered 6377, measuring 10 1/2" in overall length including a bright 6" stainless steel blade with a dull edge and serrated thumb grip and exhibits several handling marks. The genuine stag handle also shows a few handling marks and some verdigris buildup along the hardware. Included is the original brown leather sheath with light interior wear and a few external scuffs. A classic model in very good condition overall. (75694-19B)
2501. **KNIFE LOT** This is a Puma Skinner measuring 9 1/4" in overall length with a 5" curved blade exhibiting a few light scattered scratches and featuring thumb serrations. The reverse side of the nickel guard shows moderate oxidation from sheath storage and the stag handle rates near excellent with handling marks to hardware, also on reverse side. (75694-19A)
2502. **LOT OF KNIVES** This is a lot of six fixed blade knives beginning with a 7 1/2" example by Solingen Germany manufacturer Ideal with a 4" blade showing areas of mild surface oxidation and adhesive residue. The stag handle shows only light wear. Included is what is likely the original leather sheath with Ideal markings. The second knife is marked "Kabar 1207" on its bright 5 3/4" blade exhibiting a few small chips at its edge and light handling marks. The stacked leather washer handle features three finger grooves and exhibits light handling marks and the brass guard has mild verdigris transferred from contact with the included fully intact and likely original leather sheath exhibiting several hand carved illustrations. Next is another Solingen Germany marked knife, this 10 1/2" example has a 6" blade that is marked "Sheriff Knife" and shows light surface oxidation over about 60% of its surface as well as a small area of pitting close to the guard. The excellent condition brown leather handle features metal spacers. Next is a Swedish manufactured 9 1/2" with a 5" blade with mild brown surface oxidation marked "Frosts Mora". The smooth wood handle shows light dings over most its surface. Included is what appears to be the original dark brown leather sheath. Next is a U.S. Navy Mark 1 marked "RH PAL" measuring 10" with a 5" blade exhibiting dark areas and light scratches and leather handle showing moderate wear. A good to very good example overall and includes leather sheath. The last one is a Marble's with an overall length of 8" with a 4" blade showing areas along the edge of moderate brown oxidation pitting and the point is missing a chip. The stacked leather washer handle is quite smooth and the metal hardware exhibits light verdigris. (75694-18H, 19D, 19E)
2503. **LOT OF MILITARY EDGED WEAPONS** This lot consists of two U.S. issued items beginning with an M-3 Utica Fighting Knife rating about good plus overall with the blade showing mild oxidation and wear with some chips along the edge. The leather handle shows similar wear and several impact marks. It is housed in a correct M-8 scabbard in a similar state of condition. The other one is a theater modified M1 bayonet with a heavily oxidized blade and a mildly worn handle. (75694-18I, 19C)
2504. **LOT OF KNIVES** This is a lot of five knives beginning with four cutlery including two by Dexter starting with a 17" butcher knife with a 12" stainless steel blade marked "S132-12" and with only light wear marks. The white plastic one piece handle marked "Dexter Russell" has minor wear and ingrained dirt. The other one is a narrow boning knife that measures 9" overall with a 4 1/2" blade showing a smoky gray patina, an isolated spot of brown oxidation and some small chips along the edge. The wood handle marked "1375 Dexter" shows light wear, light verdigris on the rivets and a carved-in letter. Next is a 15" butcher knife with a smooth wood handle marked "NE C CO" and "G 231 C" and a 10" blade with a mottled gray patina and a large isolated area of surface oxidation at the tip. Also evident are various contact marks. The last cutlery piece is an unmarked butcher knife measuring 12 1/2" overall and with an 8" blade with scattered dark oxidation staining. The two piece smooth wood handle shows only light wear and minor verdigris buildup at the brass rivets. The last item in the lot is an Indian trade knife measuring 12 1/2" in total length including a well worn 7 1/2" blade that reveals a couple of small spots of oxidation and a decorative carved leaf pattern wood handle showing only light wear and finish loss in some creases. The matching scabbard with brass hardware rates near excellent. An about very good example overall. (75694-18J)

The cartridges are in near excellent condition and the label reads "10 Cartridges / .40 Cal. Straight Shell / for / Sharps Rifle / 65 grs. Powder 330 gr. Patched Bullet" with the Bridgeport address along the bottom. (107241-147AR) [Larry Kaufman Collection]

2611. LOT OF MIXED CALIBER AMMUNITION

This lot contains four boxes of assorted rimfire and centerfire cartridges. First is an open near full 100 round two piece box of Union Metallic Cartridge Co., Smokeless B.B. Caps. The black colored box with tan labels remains in very good overall condition with moderate flaking near all over. The labels remain intact and clearly legible and the cartridges are starting to show varying levels of fine white oxidation on the lead.

Second is a full 50 round two piece box of 32 S&W. The buff colored box with black lettering is in about good condition missing a section from the left top side with several tape repairs. The cartridges are in good overall condition with light discoloration on the casings and varying levels of fine white oxidation present on the lead. There is no conclusive evidence as to who actually manufactured these cartridges but the box top is illustrated with a top break revolver. Third is a partial 50 round (19) box of mixed head stamp 32 S&W cartridges. There are (12) 32 S&W short W.R.A. marked cartridges and (7) U.M.C. 32 S&W blanks. The cartridges show overall light oxidation and remain in about good condition. They are housed in a two piece Winchester box with faded orange and green labels. The top label is illustrated with a top break revolver and the box remains in very good plus condition. Fourth is a partial 50 round (29) box of Western 41 Short rimfire. The one piece yellow and blue box is in fair condition with tape repairs, separated but present endflap, overall scuffing and dirt staining. The cartridges remain in about very good condition. (107241-147AS) [Larry Kaufman Collection]

2612. COLLECTIBLE AMMUNITION LOT This lot contains a partial 10 round (9) box of Winchester Repeating Arms Co., 45 Sharps. This is an about very good condition lot overall with a very small amount showing chips. (75694-16K)
3225. **LOT OF GRIPS** This lot consists of four sets of Merwin, Hulbert & Company hard rubber grips. These are of the variation featuring the circular and checkered pattern logos at the tops of each side. Three of the sets rate about very good, fully intact with nice checkering and the fourth is in a lesser state of condition as there is a small chip at the base of the left panel and the checkering has smoothed considerably. (75694-16L)
3226. **LOT OF GRIPS** This is a lot of two sets of two piece smooth walnut S&W target grips beginning with an L frame with fully intact panels retaining about 90% finish with loss due mainly to high edge wear. Next are a better condition pair of K frame with about 98% finish remaining and exhibiting a few minor dings. Also included in the lot is a left panel walnut J frame with very good checkering and a J frame size right panel of smooth dark brown plastic by Barami and exhibiting a few minor scratches. (75694-16M)
3227. **LOT OF GRIPS** This lot consists of four sets of hard rubber S&W grips including three with very good checkering remaining and one of them with a left panel with a small chip running the length of the top. The fourth set has smoothed significantly and there is a thin crack running along the company logo on the left panel. (75694-16N)
3228. **LOT OF GRIPS** This is a lot of four sets of S&W hard rubber grips with very good checkering overall and one set with a 1" chip at the rear corner of the base of the left panel and another set with a small chip running across the base of its left panel. These are suitable for 32 S&W top break revolvers. (75694-16P)
3229. **GRIP LOT** This is a set of hard rubber S&W grips with the rare feature of full floral engraved panels. The grips rate about near excellent with only light wear and impressive and pronounced engraving. (75694-16Q)
3230. **GRIP LOT** This is a set of scarce original wood grips for the Savage model 101 single shot pistol. The condition is near excellent with a few minor scratches, a sharp Indian chief logo on each panel and about 98% finish retention. (75694-16R)
3231. **LOT OF GRIPS** This lot consists of two sets of revolver grips beginning with an original set of grips for the High Standard Double Nine. These are faux stag grips showing virtually no wear with the left panel exhibiting a 1" chip at the lower front inside corner. The original High Standard medallions are fully intact. The other pair is another set of faux stag, these being Jayscott 20 aftermarket and suitable for S&W medium K frame square butt. The top inch of the right panel has broken off, the left panel is fully intact and they show only very light wear. (75694-16S)
3232. **LOT OF GRIPS** This is a lot of two sets of bird's head wood grips for the S&W model 1 1/2 revolver beginning with an excellent condition pair with nice checkering and company logo. The inside right panel is hand numbered "27385". The other pair is of rosewood and are in a slightly lesser state of condition with a few light handling marks to the smooth surfaces. Each inner panel is stamped "24". (75694-16T)
3233. **LOT OF GRIPS** This lot consists of two complete sets of excellent condition faux ivory grips starting with a pair of original grips for the High Standard Double Nine Series revolver with virtually no blemishes and nice bronze medallions intact on each panel. The other pair is unmarked and of bird's head configuration, measuring about 1 1/2" in length and exhibiting a few minor scratches. (75694-16U)

3234. **LOT OF GRIPS** This is a lot of two sets of smooth walnut grips for the Charter Arms Bulldog revolver with one rating excellent with a few minor handling marks and the other is in a slightly lesser state of condition with some scuffing and impact marks on the lower right panel. (75694-16V)
3235. **LOT OF GRIPS** This lot consists of two sets of hard rubber grips for revolvers beginning with an Iver Johnson measuring about 3 1/2" in length with a 13/16" grip extension. The grips feature strong diamond checkering with light scroll engraving bordering the top and bottom, the "IJ" logo borders the top escutcheon and the owl's head logo is present at the tops of each panel as well. There are a few light bruises to the checkering on the left panel but only minor blemishes overall. The other set is Harrington & Richardson with essentially the same dimensions as the ones described above. The scalloped bordered checkering is robust and free of any blemishes worth mentioning. There is a small chip at the front base of the left panel but each pair of these two screw grips which are likely target, rate excellent. (75694-16W)
3236. **LOT OF GRIPS** This lot consists of eight sets of wood, bird's head grips. Four of these measure about 2" in overall length including two with smooth surfaces with a relatively light brown finish with one showing a small crack at the lower right panel. The smallest of this group reveals mildly worn checkering and about 10% of the left panel is chipped off at the lower front. The next three in this lot are somewhat larger, coming in at slightly more than 2". The first two of these have mildly worn checkering and isolated dark spotting. The third of these is in better condition with checkering showing less wear and featuring an impressive Phoenix logo at the top of each panel. Rounding out the lot is a slightly larger set with a darkened tone and well worn checkering. Overall the lot comes in at about very good. (75694-16X)
3237. **LOT OF GRIPS** This lot consists of three sets original wood grips for the S&W models 52 and 39 semi-auto pistol. All three of the checkered grips with S&W medallions on each panel appear unused and rate excellent exhibiting tape residue where they had been adhered for storage purposes but should clean to appear virtually as new. (75694-16Y)
3238. **LOT OF GRIPS** This lot consists of four sets of revolver grips beginning with two original Ruger Vaquero grips in checkered black plastic with silver Ruger medallions. They rate very good to excellent with only light wear. Next is a pair of silver-black plastic grips with wood interior panels stamped "20A Colt Scout" and rate excellent with little indication of use. The last set features impressive wood grain panels with very minor handling marks and are for single action army style revolvers. (75694-16Z)
3239. **LOT OF GRIPS** This is a lot of two sets of original Colt revolver grips starting with a pair of smooth walnut for the New Army/Navy and in excellent condition retaining about 98% original finish and exhibiting a few minor dings and are numbered "254786" The other pair is for the New Police/Police Positive series. The items in this lot are in very good overall condition. (107241-149D) [Larry Kaufman Collection]

3325. **MILLS BELT LOT** This lot consists of a Mills double loop cartridge belt with sabre attachment. The narrow buckle is cast brass with U.S. in an oval. It shows moderate discoloration perhaps being able to be cleaned. The woven belt consists of double row cartridge loops for 45/70 and .38 caliber (12) just to the left of the buckle. This belt is in very good plus condition and should make a nice addition to ones collection. (107241-150P) [Larry Kaufman Collection]
3326. **MILLS BELT LOT** This lot includes two single row woven cartridge belt with H pattern 1887 plates. The first belt has what appears to be a modern plate with "C" closure that measures 2 15/16"x3 3/16". The single row blue colored belt has 45 loops and remains in about excellent condition. The second belt has a period plate that measures 2 5/16"x3 5/16" with "C" closure. The belt has 45 loops and remains in excellent condition. (107241-150Q) [Larry Kaufman Collection]

3327. **MODEL 1874 BELT LOT** This lot includes two items. First is a Model 1874 leather belt with belt slides for Sabre attachment. The black leather is mostly crazed with scattered spots of light flaking. The brass fittings show varying levels of oxidation and the leather remains soft and supple. The second item is a U.S. marked cartridge box with provisions for 24 cartridges. The leather is cracked and there are spots of flaking present along the top of the flap. This is a nice pairing in overall good condition. (107241-150R) [Larry Kaufman Collection]
3328. **WWII GERMAN BELT AND BUCKLE** This lot consists of a leather belt with aluminum buckle. The belt is marked 96 along the tongue and shows some sign of age but remains in very good plus condition. The buckle is a box design with pebbled finish and is marked on the back side "JMO inside triangle / 37". The German eagle has retracted wings clutching a swastika inside a double rope circle on the front face under the words "GOTT MIT UNS" translated it means "GOD WITH US" and remains in very good plus condition. (107241-150S) [Larry Kaufman Collection]

3329. **LOT OF FLAP HOLSTERS** This lot includes, two one for a P-08 and one for a PP style pistol. First is a russet brown color leather P-08 flap holster with "Crown / II" markings on the back side. The leather is starting to craze and there are overall light scratches and the stitching remains tight. The inside of the holster is marked however the lettering is worn thin and hard to read the 1918 date is still clearly visible. The back of the holster was marked in ink identifying the owner, it is hard to decipher, as many of the letters and words have faded too thin to read. Also included with this holster is an aftermarket P-08 takedown tool. The second holster is a brown leather flap holster for a Walther PP style pistol. This appears to be a commercial manufactured holster with no identifying markings present. The holster shows some light overall wear marks to include multiple scratches and rub marks. The inside of the flap has faded ink lettering that remains illegible. These holsters remain in about very good to very good plus condition. (107241-150I) [Larry Kaufman Collection]
3330. **MODEL 1881 HOLSTER** This black leather U.S. marked (remains mostly visible) model 1881 holster is unidentified with no makers mark present. The leather is dry with light scratches near all over and has prominent spots of flaking along the suspension strap and closure flap but remains soft and supple. The stitching remains tight around the periphery and the bottom of the holster is slightly pressed in. The three brass rivets securing the suspension strap to the holster show minor amounts of verdigris and have toned to a dark mustard color. This is an about good to very good example. (107241-150J) [Larry Kaufman Collection]
3331. **LOT OF LEATHER HOLSTER RIGS** This lot includes two. The first rig is a Lawrence Co. leather basket weave style cartridge belt measuring 40" overall with 12 cartridge loops. The holster is a Lawrence No. 508 both items are in very good plus condition. Second is an unmarked "Mexican Jockstrap" style holster with 40 loop cartridge belt that measure 40" overall. The items are not maker marked and both are in very good overall condition. (107241-150X) [Larry Kaufman Collection]

3332. **MODEL 1860 FLAP HOLSTER** This early unidentified holster is not U.S. marked and is made from black bridle leather. The suspension strap is secured with the customary three rivets along the back. The leather is mostly cracked and drying with patches of flaking along the closure and along the majority of the body. The stitching has popped in a couple of spots and repaired with an adhesive. The bottom of the holster has been replaced with a wood plug and the holster remains in about good overall condition. (107241-150L) [Larry Kaufman Collection]

3332

3333. **MODEL 1916 HOLSTER** This is Boyt 1942 dated holster. The holster is U.S. marked on the front flap with tight stitching all around and has visible verdigris on all the brass hardware. The leg strap is missing but is readily available. (107241-150M) [Larry Kaufman Collection]

3334. **HOLSTER AND BELT LOT** This lot includes a cap pouch, Model 1881 holster and leather belt. The belt is adjustable up to 36" and has a square brass buckle with no maker mark and U.S. in oval on the front. The back of the belt is marked "C.A.G." near the attaching loop and the leather is dry with overall light scratches and shows patch-

3334

es of light flaking scattered along its length. The included cap pouch is not maker marked but has a crisp U.S. in oval over stamp of a smaller U.S. on the front flap. The leather is supple, the stitching remains tight and there are several light wear marks present. The Model 1881 holster is U.S. marked on the front flap and maker marked "Lanz Owen & Co., / Chicago" on the back of the suspension strap which is secured with six brass rivets that have toned to a dark ochre patina with signs of verdigris present. The holster has tight stitching some light flaking present along the closure flap with the initials H.K. stamped near the end of the flap. The items range from good to near excellent in this lot and would make a great addition to any presentation piece. (107241-150N) [Larry Kaufman Collection]

3335. **CUSTOM LEATHER HOLSTER** This lot includes a "Slim Jim" style holster that has been tooled with a large leafy floral pattern. The dark russet colored leather remains supple and has numerous tiny surface scratches and a couple of popped stitches along the seam. There is no maker mark present on this holster and it should accommodate a variety of Cowboy style revolvers with barrels up to 6". The tether strap is missing and the holster remains in very good plus condition. (107241-150U) [Larry Kaufman Collection]

3335

3336. **MODEL 1876-1879 TRIAL CARTRIDGE BELT** This lot includes a varnished canvas cartridge belt measuring 44" overall with a 10" leather tongue. In 1879 they added three 1" brass "O" rings to the belt and used them in field trials as a means of single hook attachment for the Rice Chillingsworth Trowel bayonet. The belt remains complete and intact with no visible maker mark present and is in about very good condition. (107241-150V) [Larry Kaufman Collection]

3336

3337. **LOT OF HOLSTERS** This lot contains three holsters. First is an unmarked leather "Mexican Jockstrap" style holster. The holster is russet brown in color and the leather is soft with multiple scratches and wear marks present. Some of the stitching has popped in places but the holster remains in about good overall condition. Second is a Dark brown colored leather "Mexican Jockstrap" style holster with a small spot of tooling present at the opening. The seam is secured with rivets and the leather is crazed and has spots of flaking present along the lower half. Third is a light brown stenciled "Slim Jim" style holster with the numbers 44 4761 stamped lightly on the suspension strap. The leather is soft and supple and there are numerous light scratches and wear marks present. These holsters are in overall about good condition. (107241-150W) [Larry Kaufman Collection]

3338. **MODEL 1860 FLAP HOLSTER** This early holster is not U.S. marked and is made of black bridle leather. The leather is dry and crazed with some spots flaking heaviest around the flap and along the lower section of the body. The suspension strap is secured by two rivets instead of three and interestingly there are four additional holes located near the top and bottom of the strap on the backside. The majority of the seam stitching has been redone and there is a tiny "WCO" stamped on the back side. This is an overall good condition holster. (107241-150K) [Larry Kaufman Collection]

3338

3339

3339. **ANDREWS & HILLS HOLSTER RIG** This lot includes a vintage set of gun leather. The tooled "Mexican Jockstrap" style holster is marked "Andrews & Hills / Makers / El Paso Tex." in a circle on the front face near the opening. The leather remains supple and there are spots that have moderate flaking, and expected wear from everyday use. The inner fold of the suspension loop is worn with patches missing and the holster will accommodate a revolver with up to a six inch barrel. The belt measures 3"x44" with 30 cartridge loops. It has overall cracked leather with numerous light scratches and wear marks but remains soft and supple. The Andrews & Hills Leather Co. became El Paso Saddlery in 1889 and still makes quality rigs to this day. This is an about good condition six gun rig that would no doubt have some great campfire stories if it could only talk. (107241-150Y) [Larry Kaufman Collection]

3340. **EGNER-KRESS HOLSTER LOT** This lot includes an M3 shoulder holster with canvas cartridge loop and vinyl pistol sleeve. The holster is hard to date as there is a small wear mark on the back where the date would have been stamped. The makers mark is clear and legible and U.S. marked, darkened russet colored holster appears complete. The shoulder strap is mostly crazed with areas of flaking but remains intact. The holster is soft and supple with a few light scratches and wear marks consistent with use. Also included with this lot are a vinyl pistol case that is complete and the items remain in about very good overall condition. (107241-150Z) [Larry Kaufman Collection]

3341. **LOT OF GUN LEATHER** This lot contains two items. First is an unmarked M3 style shoulder holster likely for a .380 cal automatic pistol. The holster is black in color and appears complete with soft supple leather that has signs of crazing present near all over. Second is a leather cartridge belt with shoulder straps that measures 40" overall with 55 cartridge loops that is still soft showing spots of cracking and overall general light wear. These items are still in about very good overall condition. (107241-150AA) [Larry Kaufman Collection]

3342. **LOT OF CASES** This lot contains three Leg-O-Mutton style cases. First is a Brauer Bros. Inc, takedown case measuring 33 1/2" long with a 9" to 4" radiating taper down its length. The case appears complete with a replacement closure strap on the lid, scattered minor scratches and use marks. Second is an unmarked rectangular case with brass oval centered on the front face measuring 36"x8" overall. The stitching is starting to pop along the top seam and there are overall light scratches and use marks. The shoulder strap is missing however the oval monogram plate has not been engraved. Third is a tapered case measuring 30" overall with an 8" to 3" radiating taper down its length. The case is complete showing only light surface scratches and has the numbers 41 28 stamped in the closure flap. These cases range from good to excellent in condition. (106967-1)

3343. **FIGHTING KNIFE LOT** This central American influenced design fighting knife measures 16 3/4" overall with a 11 3/4" drop point blade. The handle is a solid piece of shaped walnut secured by tightly wrapped brass colored wire rope. There are three stable with-the-grain cracks in the handle; two along the left side and one on the right. The blade has an etched scroll design on the front side with the words La Libertad as a focal point, when translated it means Freedom. The blade is marked Calidad / Superior near the grip base and the number 147 has been stamped as well and there are spots of scattered fine oxidation staining near all over on the reverse side. This is a neat looking fighting knife that remains in very good overall condition. (107217-11)

3344. **LOT OF MILITARY HOLSTERS** This lot contains two 1911 style holsters. First is a modern made Boyt model 1916 military flap holster. The top flap is embossed with a U.S. in oval and there are spots of active verdigris around the brass rivets. Second is a Bianchi M-12 U.S. marked canvas holster in green. The holster appears unused and both remain in about excellent condition. (107241-150C) [Larry Kaufman Collection]

3345. **MILITARY HOLSTER LOT** This lot contains two holsters. First is a Tex-Tan 1942 dated Model 1909/17 flap holster for a 45 double action revolver. The russet brown holster remains supple and shows overall light scratches with some crazing present along the belt loop and flap. There is active verdigris near the brass hardware and the holster remains in overall very good plus condition. (107241-150D) [Larry Kaufman Collection]

3346. **BIANCHI M66 HOLSTER** A black leather ambidextrous holster issued during the Vietnam War era mostly to military law enforcement. This 1911 holster remains pliable with lightly crazed leather that shows overall light scratches and finish loss over the snaps due to wear. Each belt loop is marked Bianchi M66 and there are a couple spots of active verdigris present around the snaps. This is an overall very good example that would surely round out ones collection. (107241-150E) [Larry Kaufman Collection]

3347. **U.S. MODEL 1912 HOLSTER** This is a 1914 Dated R.I.A. marked holster. The russet brown colored holster is moderately crazed with a couple of deep scratches and some scuffing present as well. The leather remains supple and the swivel freely moves. The leg strap is missing and there is a hard to decipher set of initials / 3 Cav No 8 on the front above the flap. This is a neat holster that likely has a very interesting history. (107241-150F) [Larry Kaufman Collection]

3347

3348

3348. **U.S. MODEL 1916 HOLSTER** This is a 1943 dated Grafton & Knight Co. marked holster. The russet brown colored holster remains supple with overall light scratches and spots of active verdigris around the rivets. The stitching is tight and the leather leg strap is still present. A very good condition example. (107241-150G) [Larry Kaufman Collection]

**3349. REGULATION 1826
PATTERN SHOULDER BELT
PLATE**

This is an unmarked enlisted eagle shoulder belt plate of die-struck brass filled with lead. The circular plate measures 2 1/2" in diameter and has toned to a dark ochre patina. The wire loops are still intact and this is an excellent example overall. (107241-147Z) [Larry Kaufman Collection]

3350. COMMON MILITIA BELT PLATE

This is a square die-struck brass buckle measuring 2 3/4"x2 3/4" with eagle-over-arms motif. The brass has toned to a dark mustard patina and remains complete in very good overall condition. These circa 1820-1830 buckles were commonly worn by enrolled militia and volunteer companies. (107241-147AA) [Larry Kaufman Collection]

3351. COMMON MILITIA BELT PLATE

This is a square die-struck brass buckle measuring 2 3/4"x2 3/4" with eagle-over-arms motif. The brass has toned to a light ochre patina with a couple patches of verdigris along the back side. The buckle is complete in very good overall condition. (107241-147AB) [Larry Kaufman Collection]

3352. **U.S. LATE 1890'S BELT PLATE** This cast plate is part of the last design of the "H" pattern plates with a simple "C" style closure measuring 3 3/8"x 2 5/16" overall. The plate is not manufacturer marked and has a lovely goldenrod patina. There are several light scratches and a few small spots of verdigris present and the plate remains in overall very good condition. (107214-147AC) [Larry Kaufman Collection]
3353. **U.S. LATE 1890'S BELT PLATE** This cast plate is part of the last design series of the "H" pattern buckles. It has a Simple "C" style closure and measures 3 3/8"x2 5/16" overall with a deep dark ochre patina, and has a few spots of oxidation staining. This plate does not appear to have a manufacturer's mark but is a very good condition example overall. (107241-147AD) [Larry Kaufman Collection]
3354. **U.S. PATTERN 1851 BELT PLATE** This eagle and wreath plate appears to be cast and measures about 2"x3" with a slight curve across its length. The buckle has toned to a rich ochre patina and the tongue looks like it has been braised in place versus soft solder and is likely an older repair. This is an overall very good condition plate. (107241-147AE) [Larry Kaufman Collection]
3355. **BULLET MOULD** This lot includes a single cavity .38 cal. round ball mould. The mould has curved metal handles and an integral sprue cutter and is mostly a plum colored patina with silver undertones. There is a single pit in each of the cavities and this mould is marked 170 along the left leg and remains in very good overall condition. (107241-147AF) [Larry Kaufman Collection]
3356. **LUGGAGE CASE** This lot includes an unmarked hard canvas case with black fur interior measuring 31"x10"x4". This case is dressed with chrome hardware and is lockable by combination. It will accommodate an over/under shotgun with barrels up to 28 inches in length and is in near excellent condition. (106519-396)
3357. **COLT PARTS LOT** This lot includes several items for a Model 1908 pocket pistol. First is a pair of hard rubber checkered grips with Rampant Colt showing mild softening of the points in overall excellent condition. Second is a 2 1/8" barrel with overall good lightly frosted bore.
